Learning and Teaching Strategy Action Plan

Project: Process Improvement

Action 7: Campus Solutions and Monitoring & Review

1. Action	Campus Solutions & Monitoring & Review (ELIR Reflective Analysis) Ensure that the management information function of 'Campus Solutions' has the capacity to provide an enhanced quality of information for monitoring and review purposes.
2. Officers/Bodies responsible	SLP, ASC, EdPSC, Senate Office.
3. Progress to date	The Senate Office are working closely with Planning Services to identify and develop standard reports for the production of management information for periodic review purposes. Schools and Colleges are responsible for extracting relevant information to inform annual monitoring.
4. Timescale for implementation	MyCampus was implemented in August 2011.
5. How are/will you evaluate effectiveness	The Senate Office will monitor the quality of data available for monitoring and review after November 2011 by comparison with information provided prior to this. College and School Quality Officers will be consulted on the quality of central data and the accessibility of this for monitoring and review procedures.
6. Evaluation of effectiveness thus far	Transition to accessing data for PSR was a complicated task in previous systems and has continued to be following implementation of MyCampus. The process in place for 2013-14 is an enhancement on previous years. There has been no noticeable impact on annual monitoring data.
7. New Actions arising from this work (optional)	
8. Suggested text to refocus the action (optional)
