1 DIAL

Cisco Unified IP Phone 6921

1 Dial
To place a call, pick up the handset and dial a number. Or, try one of these alternatives.

Redial the last number
Press the Redial softkey.

Dial on-hook
1. Enter a number when the phone is idle.
2. Lift the handset or press one of these: a line button, the Call softkey, the headset button, the speakerphone button, or the round Select button in the Navigation bar.

Speed dial
Do one of these:
- Enter a speed dial item number and press the SpeedDial softkey.
- Press the down arrow on the Navigation bar when the phone is idle. Then scroll to a speed-dial item and press the round Select button in the Navigation bar.
  The Navigation bar is located in the middle of the phone, above the keypad.

2 Answer

New Call indicators:
- A flashing red light on your handset
- A flashing amber line button
- An animated icon and caller ID
To answer the call, lift the handset. Or, press the flashing amber line button, the Answer softkey, or the unlit headset or speakerphone button.

Answer with multiple lines
If you are talking on the phone when you get another call, press the flashing amber line button to answer the second call and put the first call on hold automatically.
Your phone supports both one call per line or many calls per line. Ask your administrator about which option is right for you.

3 Mute
1. While on a call, press the Mute button. The button glows to indicate that Mute is on.
2. Press Mute again to turn Mute off.

4 Voicemail
When you get a new message, your phone provides these indicators:
- A solid red light on your handset
- A stutter dial tone (if available)
- “New Voicemail” message on the screen
Listen to messages
Press the Messages button and follow the voice prompts.
If you have multiple lines, you can check messages for a specific line by pressing the line button first.

5 Divert
Press the Divert softkey when the call is ringing, active, or on hold. Divert redirects an individual call to voicemail (or to another number set up by your system administrator).
If you want to redirect all incoming calls to another number, use Forward All. To silence your ringer, see Tips.

6 Forward All
1. Press the Fwd All softkey.
2. Enter a phone number or press the Messages button to forward all calls to voicemail.
3. Look for confirmation on your phone screen.
4. To cancel call forwarding, press Fwd OFF.
To set up forwarding remotely or on Line 2 (if supported), access your User Options web pages. Contact your system administrator for details.

7 Hold
1. Press the Hold button. The hold icon appears and the line button flashes green.
2. To resume a call from hold, press the flashing green line button or the Resume softkey.

8 Conference
1. From a connected call (not on hold), press the Conference button.
2. Make a new call.
3. Press the Conference button or the Conference softkey (before or after the party answers).
  The conference begins and the phone displays “Conference.”
4. Repeat these steps to add more participants.
  The conference ends when all participants hang up.

Conference across lines
You can combine two calls on two lines into a conference (phones with multiple lines only).
1. From a connected call (not on hold), press the Conference button.
2. Press the line button for the other (held) call.
To resume a call from hold, press the flashing green line button or the Resume softkey.

View and remove participants
During a conference, press the Details softkey. To remove a participant from the conference, scroll to the participant and press the Remove softkey.

9 Transfer
1. From a connected call (not on hold), press the Transfer button.
2. Enter the transfer recipient’s phone number.
3. Press the Transfer button or the Transfer softkey (before or after the recipient answers).
The transfer completes.

14 Navigation
Where are my line buttons?
Two line buttons are located next to the keypad. Your phone might support both lines or just Line 1. Your system administrator can assign a feature such as a speed-dial number to the Line 2 button.

Where are my softkeys?
Four softkeys buttons are located below the phone screen. You can press the more softkey (when available) to reveal additional softkeys.

How do I scroll in a list or menu?
Press the up or down arrows on the Navigation bar.

A scroll bar on the screen indicates your relative position within a list.

15 Tips
How do I quickly exit a menu?
To close a menu from any level, press the corresponding feature button. For example, press the Applications button to close the Applications menu.
To go back one level in a menu, press the Exit or Back softkey.

How can I silence my ringer?
Press the Volume bar down one time while the phone is ringing. Or ask your system administrator to set up the Do Not Disturb (DND) feature on your phone. DND silences the ringer and redirects calls to voicemail.

What does the Swap softkey do?
Swap allows you to toggle between calls and consult privately with each party before completing a transfer or conference.

How do I set up my speed dials?
To set up speed-dials and customize a variety of features and settings for your phone, use a web browser on your computer to access your Cisco Unified CM User Options web pages. Contact your system administrator for the URL and more information.

Where can I find a complete User Guide?
