University of Glasgow Timetable Web App

The Timetable Web App provides the following services:

- personalised class timetables for students and academic staff
- maps and directions to help find your way around campus
- synching of timetables with personal calendars
- alerts when there are late changes to timetables

Accessing the App

This app is available on any device with an internet browser.

It works on phone, tablet, laptop or PC but is optimized for phone and tablet, to be used when you are on the go.

To log in, open your browser and go to gla.ac.uk/timetable

Enter your GUID and password. Select Remember me on this device to skip the log in for the rest of the academic session.

Viewing Your Timetable and Finding Your Way

Tap **Timetable** in the home screen to view your timetable for a Day, Week or Month.

Swipe to change day, week or month.

In Day and Month view, tap on the event to show more details.

**Day View**  
**Event Details**

Tap the room name to show where it is on the campus map.

If your geo location is available on the device, directions are also shown from your current location (point A on the map below).

Click on the destination (point B below) for more detail.

Directions within buildings are provided to help you find specific rooms.

Descriptions of physical access features of locations are available.
Just Looking for Directions

You can also find a location by tapping Locations on the home screen.

This is similar to the previous screens but you select the departure point and destination.

Follow the screens to get the directions.

Enter text in the box at the top to help find the buildings and rooms.
Subscribing to Your Timetable

Some devices allow you to subscribe directly to your timetable calendar. For example, you can link directly from an iPhone calendar to your timetable, keeping up-to-date with any changes.

Tap *Subscribe* in the home screen for details of how to subscribe.

Timetable Changes

Changes made by the University to your classes will automatically appear on your timetable in the web app.

Late changes (made in the current day for the current or next day) are shown as alerts on the home screen.

These are also emailed to the main email address you set up in MyCampus.

You can additionally receive late change SMS text alerts by tapping on *Settings* in the home screen and selecting this option.
