PSYCHOLOGICAL STUDIES (CONVERSION) MSc

WORLD CHANGERS WELCOME
PSYCHOLOGICAL STUDIES (CONVERSION)
MSc: 12 months full-time

This British Psychological Society (BPS) accredited conversion programme is designed to provide you with a broad and critical awareness of psychological theory and practice. You will be provided with a wide range of opportunities, which allow you to study aspects of psychology with particular relevance to your own interests and experience.

What will I get from this programme?
- You will study the fundamental and specialised theories, principles and concepts, which are informed by developments at the forefront of research in psychology.
- You will utilise a significant range of skills, techniques, practices and materials, which are associated with psychology.
- This is a conversion degree for students who have no previous studies in the area of psychology. You will have the opportunity of a change in direction, to pursue a career, either academic or professional, in psychology.
- Successful completion of this programme makes you eligible for BPS Graduate Basis for Chartered membership (GBC).

Why Glasgow
This is a highly regarded academic programme that provides you with access to a vibrant, friendly, inclusive and supportive environment. There is strong academic supervision and pastoral support throughout your studies.

Prior to joining the programme I had experience of research work in social sciences, and studying psychology allowed me to change the direction of my career to my much-desired area of psychology. Soon after graduating I was offered the position of research assistant at a university where I currently work in the department of psychiatry.

Tania Biletskaya, Belarus

Programme structure
You will take eight core and two optional courses, followed by a research project or dissertation.

Core courses
- Cognitive psychology
- Conceptual and historical issues in psychology
- Developmental psychology
- Individual differences
- Physiological psychology
- Research methods 1
- Research methods 2
- Social psychology

Optional courses
- Advanced qualitative methods
- Atypical development
- Clinical health psychology

Career prospects
As this programme is accredited by the British Psychological Society, you are eligible for the Graduate Basis for Chartered Membership of the Society (GBC). Our graduates have successfully progressed to further academic study and professional training in the field of psychology. Graduate final destinations after completing further mandatory study include clinical, educational and counselling psychologists, and research associate.
