Details of funding opportunities for grants, investigator awards and fellowships are outlined in the ICAMS funding bulletin with deadlines within the next 6 months.

**British Heart Foundation:** Information on project grants, programme grants and fellowships can be found here, together with a full list of other grant types offered by the BHF. There are no closing dates.

**Responsive Mode Research Grants:** These support investigator-led research activities addressing any topic within the council’s remit. Grants may be used for research projects, technology development, equipment or use of existing facilities, new facilities or infrastructure provision, research networks and coordination, and summer schools. **Deadline: 17th April 2017**

**New Investigator Scheme:** £2m. This assists early-career researchers in securing their first major element of research funding. **Deadline: 27th April 2017**

**Industrial Partnership Awards:** £2m. These support academic-led research projects that address any topic within the council’s remit, and where industrial partners contribute in cash funding. **Deadline: 27th April 2017**

**BBSRC-State of São Paulo Research Foundation Joint Research Funding:** £2m. This supports applications that cut across national boundaries and involve international collaborative teams. **Deadline: 27th April 2017**

**Stand-Alone LINK Programme:** £2m. This supports pre-competitive research projects that address any topic within the council’s remit, and where industry contributes funding. **Deadline: 27th April 2017**

**David Phillips Fellowships:** £1m. These support researchers who wish to establish their first independent research group in any area of science within the council’s remit, which includes research on plants, microbes, animals, and tools and technology underpinning biological research. **Deadline: 11th May 2017**

**Future Leader Fellowships:** £300,000. This enables early-career researchers to undertake independent research in any area within biotechnology and biological sciences, and to gain leadership skills. **Deadline: 11th May 2017**

**Clinician Scientist Award:** This enables PhD-qualified haematologists in training to combine postdoctoral research with the completion of specialist training. **Deadline: 1st August 2017 (forecast)**

**Health Improvement, Protection and Services Research Grants:** £300,000. These support development, feasibility or pilot studies that aim to improve or protect population health, or improve the quality, safety and effectiveness of healthcare in Scotland. **Deadline: 30th June 2017**
Translational Clinical Studies Research Grants: £300,000. These support development, feasibility or pilot studies that aim to improve treatments or diagnostic approaches for conditions of clinical importance to the population of Scotland. Deadline: 30th June 2017

Young Thrombosis Researchers Exchange Grant: This enables young investigators to perform basic or clinical research on thrombosis at a host institution in another society member country or affiliated country. Deadline: 30th July 2017

Commercialisation of Quantum Technologies – Collaborative Research and Development: £2m. This competition aims to support challenge-led collaborative R&D projects in quantum technologies. Deadline: 29th March 2017

Commercialisation of Quantum Technologies – Feasibility Study: £400,000. This competition aims to encourage collaborative feasibility studies that will improve understanding of the technical or market feasibility of a product or service in the field of quantum technology. Deadline: 5th April 2017

Innovation in Health and Life Sciences – Round 2: £2m. This aims to stimulate innovation in health and life sciences by covering at least one of Innovate UK’s priority areas, which are to increase yield, quality and sustainability in agriculture and food production; support advanced therapies, precision medicine or preclinical technologies; develop bioscience techniques and capabilities that have the potential to improve healthcare or agriculture and food production in the future. Deadline: 5th April 2017

Precision Medicine Programme in South Africa Competition: £1.5m. This aims to develop affordable gene-based diagnostic solutions and targeted treatments for diabetes, cardiovascular disease, cancer, and child mortality in South Africa. Deadline: 10th May 2017

Technology to Improve Inflammatory Bowel Disease Care and Management: £75,000. This supports the development of innovative technology and digital platforms that will improve the ongoing management of inflammatory bowel disease for people living with the disease. Deadline: 17th May 2017

Capital Investment in Human Tissue Banking and Linked Data, in Partnership with Charities: £2.5m. This call supports the establishment of a focussed number of world-class human tissue banks and associated linked-data repositories, which will work in close partnership with research charities to enable new avenues of research into disease mechanism, diagnosis and treatment. Deadline: 27th March 2017

Global Research Programme – Addressing the Health Needs of Women and Children in Disadvantaged Populations Globally: This supports research that will impact the ability to prevent, diagnose and manage prevalent chronic and infectious diseases facing women and their unborn children in low- and middle-income settings and aims to have a positive effect on their life-course. Deadline: 12th April 2017

Senior Non-Clinical Fellowship – Transition to Leadership: This enables experienced non-clinical researchers to transition into research leaders. Deadline: 25th April 2017

Career Development Award: This enables postdoctoral researchers to lead their own research plans and establish their own research team to make the transition from postdoctoral researcher to independent investigator. Deadline: 25th April 2017
Research Grants – Population and Systems Medicine: £1m. These are suitable for focused research projects that may be short- or long-term in nature. Deadline: 24\textsuperscript{th} May 2017

New Investigator Research Grant – Population and Systems Medicine: This supports researchers capable of becoming independent principal investigators and who are ready to take the next step towards that goal within the areas of population and systems medicine. Deadline: 24\textsuperscript{th} May 2017

Partnership Grant – Population and Systems Medicine: This provides core funds to support partnerships between diverse groupings of researchers, and can be used for infrastructure support, platform activities and for bringing together managed consortia or multidisciplinary collaborations. Deadline: 24\textsuperscript{th} May 2017

Programme Grants – Population and Systems Medicine: These provide large and long-term renewable funding to the medical community to think bigger and conduct a coordinated and coherent group of related projects that may be developed to address an interrelated set of questions across a broad scientific area. Deadline: 24\textsuperscript{th} May 2017

COMING SOON: PhD Studentships: These studentships enable Scottish universities or research institutions, working in conjunction with a trading company involved in medically-relevant life sciences research, to deliver a PhD studenthip programme. Deadline: 25\textsuperscript{th} July 2017 (forecast)

Longitude Prize: £8m. This rewards the development of a transformative point-of-care diagnostic test to revolutionise the delivery of global healthcare and conserve antibiotics for future generations. Deadline: 31\textsuperscript{st} May 2017

Administrative Supplements for Research on Dietary Supplements: $100,000. This funding opportunity announcement aims to strengthen knowledge and understanding of dietary supplements by evaluating information, stimulating and supporting research, disseminating research results, and educating the public to foster an enhanced quality of life and health for the US population. Deadline: 15\textsuperscript{th} April 2017

NIH StrokeNet Clinical Trials and Biomarker Studies for Stroke Treatment, Recovery and Prevention (U01): This U01 funding announcement encourages multi-site exploratory and confirmatory clinical trials focused on promising interventions, as well as biomarker-or outcome measure validation studies that are immediately preparatory to trials in stroke prevention, treatment and recovery. Deadline: 5\textsuperscript{th} June 2017

Biobehavioural and Technological Interventions to Attenuate Cognitive Decline in Individuals with Cognitive Impairment or Dementia (R01): These R01 grants aim to stimulate clinical research focused on biobehavioural or technological interventions to attenuate cognitive decline in individuals with dementia, mild cognitive impairment, or disease or age-related cognitive decline. Deadline: 5\textsuperscript{th} June 2017

Reducing Health Disparities Among Minority and Underserved Children (R01): Directed grants to institutions, research groups etc. This announcement encourages research that targets the reduction of health disparities among minority and underserved children. Deadline: 5\textsuperscript{th} June 2017

Exploratory or Developmental Research Grant Programme (parent R21): $275,000. This announcement encourages exploratory and developmental research projects by providing support for the early and conceptual stages of these projects. Deadline: 16\textsuperscript{th} June 2017
**Theo Murphy International Scientific Meeting:** This enables scientists to present and discuss new research in all areas of science during a two-day meeting held at the Royal Society at Chicheley Hall for audiences of up to 80. **Deadline: 3rd April 2017**

**Scientific Meetings:** This offers the opportunity to present an international, two day conference in any field. Funding includes full administrative support, a contribution towards speaker, organiser and chair travel expenses and accommodation, logistical support, materials for the meeting, venue, facilities and catering. **Deadline: 3rd April 2017**

**Scottish Enterprise/RSE Enterprise Fellowships:** These enable individuals based in Scotland to advance commercialisation of existing research outcomes or technological developments whilst also receiving relevant business skills. **Deadline: 26th April 2017**

**Sir Henry Wellcome Postdoctoral Fellowships:** £250,000. These enable newly qualified postdoctoral researchers the opportunity to start independent research careers, working in some of the best research environments in the world. **Deadline: 4th May 2017**

**Investigator Awards in Humanities and Social Sciences:** £1m. These support researchers in established posts at all career stages working on important questions of relevance to health. **Deadline: 4th July 2017**

**Collaborative Awards in Humanities and Social Science:** £1.5m. These support teams who are tackling major health-related questions in the humanities and social sciences that require a collaborative approach. **Deadline: 4th July 2017**

**Research Fellowships in Humanities and Social Science:** These support humanities researchers and social scientists who want to explore areas of health but do not hold established academic posts. **Deadline: 6th July 2017**

**University Awards in Humanities and Social Science:** These enable humanities and social science researchers to gain permanent positions at academic organisations in the UK, Republic of Ireland or in a low- or middle-income country. **Deadline: 6th July 2017**

**Research Awards for Health Professionals:** £300,000. These enable practising health professionals to carry out humanities or social science research in any area of health. **Deadline: 6th July 2017**

**Senior Research Fellowships in Basic Biomedical Science:** This supports independent researchers at academic organisations in the UK and Republic of Ireland who are expected to become leaders in their scientific field. **Deadline: 27th July 2017**

**Senior Research Fellowships in Clinical Science:** These enable clinical investigators to develop their research potential and to establish themselves as leading investigators in clinical academic medicine. **Deadline: 27th July 2017**

**Internal Funding – Glasgow Knowledge Exchange (2015-18)**
