Five-year research strategy plan template

1. The subject’s overall vision and ambitions for REF2021.

2. A concise roadmap of individual roadmaps for 3*/4* outputs, with specific focus on planned/expected 4* research activity.

3. A brief outline of research funding plans for the next five years. This should be informed by: the School's research targets as expressed in the planning dashboard; research income promised/projected in business cases that the subject has put forward recently (last two years); the subject’s plans for specific projects; and the subject's overall aspirations related to (for example) research income metrics for the UoA.

4. A brief summary of the unit's KE/impact plan for the next five years including impact case studies for REF2021.

5. The unit’s research leave plan: the chronology of planned research leave for the next five years.

The document should not exceed three pages and should be submitted to Raymond Boyle and Jeanette Berrie by the end of April 2017.
