Details of funding opportunities for grants, investigator awards and fellowships are outlined in the ICAMS funding bulletin with deadlines within the next 6 months.

**British Heart Foundation:** Information on project grants, programme grants and fellowships can be found here, together with a full list of other grant types offered by the BHF. There are no closing dates.

**Springboard awards:** £100,000. These enable UK biomedical scientists to develop their independent research careers.
Closing date: 26 Jun 17

**New investigator scheme:** £2m. This assists early-career researchers in securing their first major element of research funding.
Closing date: 04 Oct 17

**Industrial partnership awards:** £2m. These support academic-led research projects that address any topic within the council’s remit, and where industrial partners contribute in cash funding.
Closing date: 04 Oct 17

**Standard Follow-On Funding:** £200,000. Supports the translation of fundamental research funded by BBSRC into practical application including commercialisation.
Deadline: 11th October 2017

**Super Follow-On Funding:** £1.6m. Supports the translation of fundamental research funded by BBSRC into practical application, including commercialisation.
Deadline: 11th October 2017

**Bioinformatics and biological resources fund:** £6m. This fund provides support for resources such as databases, genetic resources and culture collections that require long-term maintenance and curation.
Closing date: 02 Nov 17 (Forecast)

**Japan partnering awards:** £50,000. These facilitate partnership links between UK and overseas laboratories, promote the exchange of scientists, particularly those in the early stages of their career, and promote access to facilities.
Closing date: 17 Nov 17 (Forecast)

**Brazil partnering awards:** £50,000. These aim to set up partnership links between the UK and Brazilian laboratories, promote the exchange of scientists, particularly those in the early stages of their career, and promote access to facilities.
Closing date: 17 Nov 17 (Forecast)

**US partnering awards:** £50,000. These aim to set up partnership links between UK and US laboratories, promote the exchange of scientists, particularly those in the early stages of their career, and promote access to facilities. Awards are typically worth up to £50,000 over four years.
Closing date: 17 Nov 17 (Forecast)
**Translational clinical studies research grants:** £300,000. These support development, feasibility or pilot studies that aim to improve treatments or diagnostic approaches for conditions of clinical importance to the population of Scotland.

**Closing date:** 30 Jun 17

**Health improvement, protection and services research grants:** £300,000. These support development, feasibility or pilot studies that aim to improve or protect population health, or improve the quality, safety and effectiveness of healthcare in Scotland.

**Closing date:** 30 Jun 17

**PhD studentship:** £57,000. The scheme enables outstanding science graduates to study for a PhD in the field of diabetes research.

**Closing date:** 30 Sep 17 (Forecast)

**Public health intervention development scheme:** £150,000. This supports the early stages of development of public health interventions.

**Closing date:** 13 Jul 17

**Research grants – molecular and cellular medicine:** £1m. These are intended for focused research projects that may be short- or long-term in nature that can be used to support method development and continuation of research facilities and may involve more than one research group or institution.

**Closing date:** 06 Sep 17

**Translational research in paediatric and obstetric pharmacology and therapeutics (R21):** $275,000. This supports translational and clinical research as well as clinical trials that will advance our knowledge about the underlying mechanisms of drug action, response, and safety in children at various developmental stages, and in women during pregnancy and lactation.

**Closing date:** 07 Aug 17

**Development of animal models and related biological materials for research (R21): Aids-related:** $275,000. This Aids-related announcement solicits proposals to develop, characterise or improve animal models and related biological materials for human health and disease or to improve diagnosis and control of diseases that might interfere with animal use for biomedical research purposes.

**Closing date:** 07 Sep 17

**Diet and physical activity assessment methodology (R21):** $275,000. This announcement supports innovative research to enhance the quality of measurements of dietary intake and physical activity.

**Closing date:** 16 Oct 17

**Postdoctoral fellowships:** £175,000. These enable postdoctoral candidates from the nursing or allied health professions to conduct an independent research project under the supervision of an established member of the stroke research community.

**Closing date:** 02 Nov 17 (Forecast)

**Postgraduate fellowships:** £70,000. These enable graduates to obtain a postgraduate research qualification, giving them the required skills to ultimately undertake an independent career in stroke research.

**Closing date:** 05 Nov 17 (Forecast)
**Research training fellowships:** £200,000. These enable medical graduates to pursue a career in academic medicine by undertaking basic science, clinical or translational research.
Closing date: 23 Sep 17 (Forecast)

**Seed awards in science:** £100,000. These help researchers develop novel ideas that will go on to form part of larger grant applications to the trust or elsewhere.
Closing date: 03 Jul 17

**Collaborative awards in humanities and social science:** £1.5m. These support teams who are tackling major health-related questions in the humanities and social sciences that require a collaborative approach.
Closing date: 04 Jul 17

**Investigator awards in humanities and social sciences:** £1m. These support researchers in established posts at all career stages working on important questions of relevance to health.
Closing date: 04 Jul 17

**Research awards for health professionals:** £350,000. These enable practising health professionals to carry out humanities or social science research in any area of health.
Closing date: 06 Jul 17

**Investigator awards in science:** £3m. These enable researchers at any career stage to address important questions relevant the trust’s remit.
Closing date: 27 Jul 17

**Collaborative awards in science:** £4m. These promote the development of new ideas and speed the pace of discovery in clinical and public health.
Closing date: 23 Aug 17

**Internal Funding – Glasgow Knowledge Exchange (2015-18)** The University established the KE Fund in 2012 to support high-quality knowledge exchange activities and impact generation across the University and to support groups and individuals capable of influencing and creating impact. In its first three years, outcomes have included: contribution to ~22 impact case studies (current and potential, <£500k in translational research income, follow-on collaborations with research users and a contribution to a strong potential impact case study pipeline.
