Induction is an important introduction to University life and all new students are expected to attend. In the coming weeks and months, you will face many things that are new to you, most of which will be exciting but may, at first, seem challenging and potentially confusing. With induction we aim to provide clarity on what you need to know to support and facilitate your successful progression into University life.

This induction will be led by the Head of Learning & Teaching, Dr Iain Johnstone, the Effective Learning Adviser for the College of Medical, Veterinary & Life Sciences, Dr Scott Ramsay and Mrs Tracy Wilson, School Student Administrator.

Please attend at the following times:

Students with surnames A-L: 1000-1200
Students with surnames M-Z: 1400-1600

**TUESDAY 12 SEPTEMBER 2017**
