Computer/device/system requirements checklist

Internet browsers

Moodle requires the following browser specs:

- Google Chrome 30.0 or later
- Mozilla Firefox 25.0 or later
- Microsoft Internet Explorer 9 or later

Javascript also needs to be enabled within your browser.

Minimum computer specifications

- Processor: 2GHz
- Operating System: Microsoft® Windows® Vista Service pack 1, Windows® 7, Mac OS X v10.4.11+
- Memory: 4GB of RAM
- Hard disk: 250 GB
- Sound card and microphone plus speakers or headphones
- Monitor and video card with 1024x768 display or higher
- Broadband internet connection: 1.5 MBs or higher

Mobile devices specifications

- iOS: latest, and latest version of Apple Safari web browser
- Android: 4.4+ with latest Google Chrome

Advised software

- Word processing software (that outputs to the following file types for marking online: .doc, .docx, .rtf, .pdf)
- Anti-virus software

Optional hardware

There are no live virtual classroom sessions scheduled for this course. However, if you anticipate having Skype meetings with your course tutor or support staff (e.g. for academic writing support), then a Skype-compatible headset with microphone is recommended. Alternatively, you may wish to contact staff by telephone.
