

ScotGrid Tier-2 facility

Leading UK GRID group
Largest Tier-2 in the UK
Integrated into LHC Computing Grid
ATLAS & LHCb analysis support
EU, STFC, SFC and GU funded

Planned PPE Cleanroom

Silicon detector testing
Module assembly
Module metrology
Device characterisation
SFC and GU funded

Faculty workshop

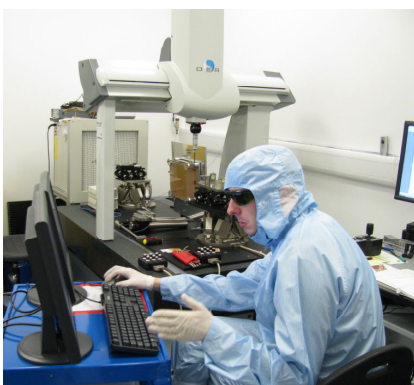

HAAS 5-axis mill

James Watt Nanofabrication Centre

750m² cleanrooms for processing
Mask writing
Fabrication of new detector designs

Institute for Gravitational Research advanced metrology labs

Advanced metrology in class 100 cleanrooms
Access via SUPA programme
