- National Institute of Communicable Diseases, Johannesburg, South Africa (pending confirmation)

Please tell us locations you can travel to (from the above list), in case your preferred location is not offered:

### Are you applying for a scholarship?

For session 2026-27, we are offering 10 competitive scholarships. **These are available for applicants in a DAC listed country only.** The scholarships are offered to build and strengthen healthcare capacity.

I would like to be considered for a scholarship

We ask you to make a strong case for how you will benefit from the DTMH qualification and how this supports healthcare systems in your country of residence. **Suitable candidates must agree to be interviewed by the course directors and successful candidates must agree to the terms and conditions, which will be explained during interview.**

Applications for scholarships will close as soon as places are filled

**Explain why we should consider you for a scholarship (no more than 200 words):**
