2025-2026 Year 3 Systems Block – Virtual GP Tutorials Commencing January 2026

From January 2026 all Year 3 students rotate through four 5-week blocks (**new** Systems Block, Medicine, Surgery and their Student Selected Component), with each block being delivered 4 times for the whole cohort.

The new Year 3 Systems block in is designed to consolidate learning across systems of care and a greater understanding of the patient journey through these systems.

The Year 3 GP teaching team are delighted to be able to build on the existing community-based curriculum and experiences and are recruiting GP tutors to support the delivery of some of the GP teaching components to this new Systems Block:

- Clinical GP Attachment
- Online Small-Group Virtual Tutorials
- GP Out-of- Hours sessions
- Advanced communication skill sessions, including Remote Telephone Consulting workshop

And an innovative university-led learning package learning to support their understanding of the broader context of General Practice.

We are therefore recruiting tutors to support the delivery of the new teaching Systems block for the Virtual GP Systems Tutorials as follows:

Virtual Small Group Tutorial (1 teaching session per week for 4 weeks):

A tutor will facilitate an online tutorial via Zoom with groups of c10 students on a **Friday morning from 9.30-11.30pm on Weeks 1-4 of each Systems Block.**

During tutorial time students and tutors consider learning outcomes for each tutorial by discussing cases seen and working through associated online learning content provided by the University to explore and support students understanding of how General Practice is supporting the delivery of sustainable healthcare. We hope by combining clinical placement attachments and a blend of university-led lectures and small group sessions, including communication and clinical skills teaching we can integrate sustainability principles and support our medical students to become doctors who are not only skilled clinicians but also environmentally conscious professionals.

Virtual Small Group Tutorial Teaching Dates:

Systems Block Virtual GP Tutorials	Block 1	Block 2	Block 3	Block 4
Tutorial 1 (Friday 9.30-11.30pm)	23/01/2026	27/02/2026	17/04/2026	22/05/2026
Tutorial 2 (Friday 9.30-11.30pm)	30/01/2026	06/03/2026	24/04/2026	29/05/2026
Tutorial 3 (Friday 9.30-11.30pm)	06/02/2026	13/03/2026	01/05/2026	05/06/2026
Tutorial 4 (Friday 9.30-11.30pm)	13/02/2026	20/03/2026	08/05/2026	12/06/2026

Payment: the Virtual Small Group Tutorial remuneration is £180 for each 2-hour tutorial - payments are made as personal fees by the university e.g., remuneration per 4-week block = £ 720

Who can apply:

Open to fully qualified GPs from the Ayrshire & Arran, Forth Valley, Greater Glasgow & Clyde and Lanarkshire health boards.

How to apply:

Notes of interest are welcome throughout the year via: med-sch-gp-placements@glasgow.ac.uk. For informal enquiries please contact GP Teaching Opportunities gpteachingopps@glasgow.ac.uk or Dr Katie Brown (katie.brown@glasgow.ac.uk)
