University
of Glasgow

School of Medicine,
Dentistry & Nursing

Work Shadowing

We recognise that obtaining work shadowing in a dental setting is becoming increasingly difficult, however, applicants may still be able to secure alternative forms of shadowing or voluntary work which involves caring for and interacting with different people or develops the skills you will need as a dental professional.

For more information on alternatives see

<https://www.gla.ac.uk/schools/dental/undergraduate/workshadowing/>

Dentistry & Nursing

UCAS Personal Statement changes 2026

This year there has been a changes to the Personal Statement 'box' as part of the application process.

From 2026 there are now three specific questions being posed:

- Why do you want to study this subject / course?
- How have your qualifications and studies helped you prepare for this subject or course?
- What else have you done to prepare outside of education, and why are these experiences useful?

These will be assessed as part of the admissions process

University

School of Medicine,
Dentistry & Nursing

UNIVERSITY CLINICAL
APTITUDE TEST

UCAT

- University Clinical Aptitude Test (UCAT) is an admissions test used by a number of Universities for their medical and dental degree programmes.
- The range of scores we consider changes each year as the performance of each admissions cohort varies.
- Fee associated with UCAT test – eligible applicants can apply for a bursary to cover the cost of the test.

University
of Glasgow

School of Medicine,
Dentistry & Nursing

UNIVERSITY CLINICAL
APTITUDE TEST

UCAT

- The UCAT forms an extremely important part of the BDS entry requirements and if your score is deemed to be too low then you will not be selected for interview, regardless of your qualifications.
- Changes from 2025 - one section (Abstract Reasoning) has been removed from assessment so comparing to previous cut off scores prior to then will not be equitable
- Includes Verbal Reasoning, Decision Making, Qualitative Reasoning and Situational Judgement

University
of Glasgow

School of Medicine,
Dentistry & Nursing

Selection Procedure

1. Applications are screened in line with our published entry requirements:

- <https://www.gla.ac.uk/schools/medicine/dental/undergraduate/academicentryrequirements/>
- If you do not, or cannot, meet the criteria in our person specification, your application will not be given further consideration

University
of Glasgow

School of Medicine,
Dentistry & Nursing

Selection Procedure

2. For candidates who meet the published criteria, the UCAT score is used to select the required number of applicants for interview. The cut off for the UCAT score is determined on an annual basis to allow us to take forward the required number of applicants to the interview stage.
- We do not release the cut off score in the year of application.
 - If you are not asked to attend interview, it is because your UCAT score was below the cut off.

University
of Glasgow

School of Medicine,
Dentistry & Nursing

Selection Procedure/Interviews

3. Interviews – interviews usually held in January/February.

- On an annual basis, we agree on the number of offers to be issued in order to meet the intake targets set by the Scottish Government and the Scottish Funding Council.
- If you do not receive an offer following interview, it is because your overall interview score was below the cut-off for receipt of an offer.
- Interviews for 2027 are likely to be virtual MMI style interviews

University
of Glasgow

School of Medicine,
Dentistry & Nursing

Key Dates

- Application Deadline – 15th October 2025
- Interview Invitations – December 2025
- Interviews – Late January/ Early February 2026
- Decisions Communicated – March 2026
