2026-27 Year 3 Systems Block– Remote Telephone Consultation Workshops Commencing February 2027

All Year 3 students rotate through four 5-week blocks (new Systems Block, Medicine, Surgery and their Student Selected Component), with each block being delivered 4 times for the whole cohort.

The Year 3 Systems block is designed to consolidate learning across systems of care and a greater understanding of the patient journey through these systems. The Year 3 GP teaching team are delighted to be able to build on the existing community-based curriculum and experiences by delivering a variety of GP teaching components within the Systems Block.

We are recruiting tutors to support the delivery of Remote Telephone Consultation Workshops

These workshops help students develop consultation and safety-netting skills in a safe, supportive setting, building on learning from Years 1–3 and increasing confidence with remote consultation during their GP placement and OOH attachments. Based on real GP consultations, tutors role-play a scenario to a group of c4 students and then rotate to another group. This is repeated 4 times. Each student leads one consultation and observes and feeds back on three

peers. Students first discuss the scenario for five minutes using available resources, then complete a ten-minute camera-off role-play consultation covering history, management, and safety-netting, followed by a five-minute debrief where feedback is given and key learning points agreed.

Teaching Dates:

Systems Block Remote Consulting Workshops	Block 1	Block 2	Block 3	Block 4
Session 1 (Wednesday 9-11.00am) Session 2 (Wednesday 11.30am-1.30pm)	10/02/2027	17/03/2027	14/04/2027	02/06/2027

Payment: Remuneration is £160 per session (if you sign up for Session 1 (9-11am) and Session 2 (11.30am-1.30pm) on the same day, then remuneration is £320) - payments are made as personal fees by the university.

Who can apply: open to fully qualified GPs from the Ayrshire & Arran, Forth Valley, Greater Glasgow & Clyde, and Lanarkshire health boards.

How to apply: please complete the [online recruitment form](#).
