

## Strategic Objectives for the Transport and Travel Work Stream

- Identify and eliminate unnecessary travel and reduce the impact of transport generated by the University on the rest of the community, the local and wider environment.
- Widen the choice of means for staff, students and visitors by which they may travel to and from the University in a safe, comfortable and sustainable way, simultaneously improving the working environment for staff and students.
- Identify, support, and promote alternatives to single occupancy car travel to and from the University for staff, students and visitors.
- Positively influence the health and fitness of staff and students by encouraging more walking and cycling as a means of travel.
