

Attachment Disorders Workshop with Professor Helen Minnis

14 and 28th October 2016 – FULL

7th November 2016 – FULL

6th and 12th December – FULL

9th January 2017 – FULL

9.30 am to 12.30 pm

**Caledonia House, Academic CAMHS, 2nd Floor,
West Glasgow Ambulatory Care Hospital, Yorkhill,
Glasgow, G3 8SJ.**

As a result of feedback from the Attachment Disorders State of the Art in Europe conference on 22nd April 2016 we are offering a series of Attachment Disorder Workshops. This will give clinicians/practitioners more time to absorb information and consider how it related to their cases/clients.

If you would like to attend, please come along with a child/family in mind, although there will not be time to discuss all of these.

WE ARE NOT ASKING FOR FORMAL PRESENTATIONS – JUST DISCUSSION

We hope to have a mixture of delegates as we did at the conference and will try to ensure that a wide range of clinicians/practitioners (e.g. health visitors, teachers, CAMHS, social work), get a chance to contribute.

9.30 – 10 am	Overview of Attachment Disorder
10 – 11 am	Discussion of cases
11 – 11.15 am	break
11.15 – 12.15 am	Discussion of cases
12.15 – 12.30 pm	Summing up of learning points

PLACES ARE LIMITED – 25 MAXIMUM PER SESSION

Delegate fee £20 (payable in advance)

To book please complete the enclosed slip and return to

Irene O'Neill, Academic Secretary, Caledonia House, 2nd Floor,
Academic CAMHS, West Glasgow Ambulatory Care Hospital
Yorkhill, (old RHSC), Glasgow, G3 8SJ

DIRECTIONS

Caledonia House is based at the West Glasgow Ambulatory Care Hospital (previously known as the Royal Hospital for Sick Children). We are based at the back of the hospital, beside the main staff car park. The name of the building is Caledonia House and we are on the 2nd floor.

Yorkhill NHS Trust is situated in the West End of Glasgow and is a very easy place to find no matter how you are travelling, we are at the top of the hill behind the Kelvin Hall.

Coming by Car

Look out for the Kelvingrove Museum and Art Gallery and the Kelvin Hall. These are on Dumbarton Road and whether you are travelling east or west, you will see signs directing you to the hospital (they may say Yorkhill Hospitals).

Car Parking

There is visitor/patient car parking available beside Caledonia House.

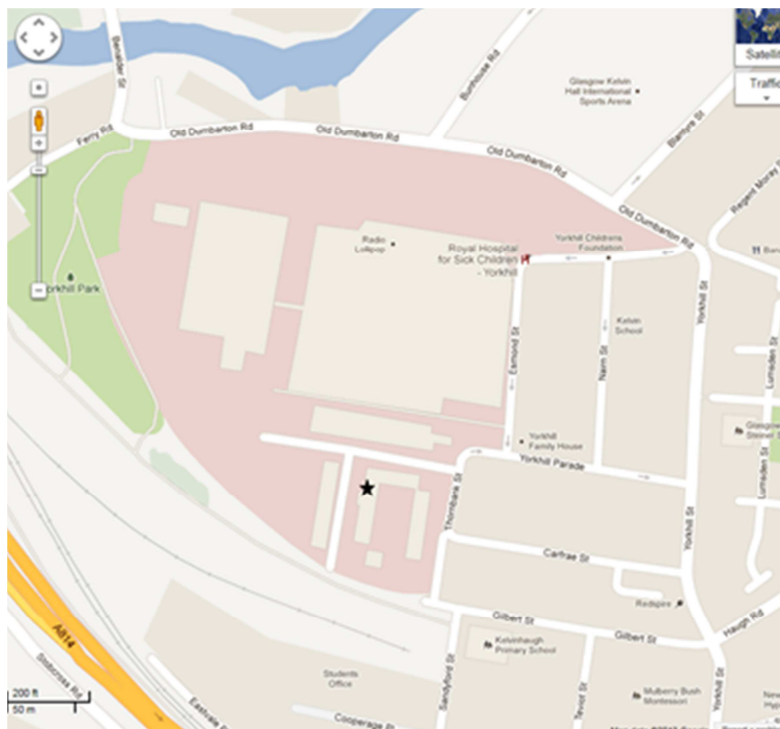

Trains / Underground

The nearest train station is Patrick.

The nearest underground station is Kelvin Hall

Buses

The nearest bus stop is Kelvin Hall and Art Gallery and you will have an uphill walk to the hospital. A number of buses pass near the hospital –6, 8, 9A, 16, 42, 57, 62, 64, GCT 49, or Byres Road Junction 89, 90 – or you could telephone Travel-line Scotland for assistance 0870 6082 608.

BIOGRAPHY

Professor Helen Minnis is a Professor of Child and Adolescent Psychiatry at the University of Glasgow. She spent time working as an Orphanage Doctor in Guatemala in the early 1990s prior to training in Psychiatry, and this stimulated an interest in the effects of early maltreatment on children's development. Her research focus has been on Reactive Attachment Disorder (RAD) and Disinhibited Social Engagement Disorder (DSED): clinical aspects, assessment tools and behavioural genetics. She is now conducting intervention research for maltreated children including a NIHR funded randomised controlled trial of an infant mental health service for young children in foster care.
