Engage!

People from all over the world, doing fantastic and interesting things

You are part of our community – use it

Don’t just sit in your office – seek opportunities, go to seminars, challenge yourself, learn new things.

Broaden your mind, don’t narrow it. Learn from each other
PhD Journey

3 years of hard work – challenging, frustrating, difficult.... And enormously rewarding.

Supervisory Team – guide, mentor, teacher, critic.

Work with you – set tasks, read your work, guide your questions. But this is your work and your responsibility.

Think about training, and also about Professional Skills. Not all of you will be (or want to be) academics.

Annual Progress Review
PGR Code of Practice

Rules by which we work
