

'A lifetime experience that wasn't anticipated at all; even though my enrolment to the programme came by chance, it was the best thing that ever happened to me. The degree of diversity that I encountered in the programme was beyond my expectations. Not only the students, but also the teaching staff come from various backgrounds and nationalities, which made the learning journey worthwhile. The chance to learn a foreign language provides you with an in-depth knowledge of the area under study and a competitive advantage for the labour market afterwards.'

- This programme lets you live and study in the region, learning its history, culture, and languages.

- CEERES is ideally suited to students planning careers in government, media and international organisations, who wish to acquire a specialised knowledge of Russia, Central and Eastern Europe and Eurasia and proficiency in one of the region's languages.

### What will I get from this programme?

- The CEERES programme provides you with a thorough knowledge and understanding of historical and contemporary developments in the society, politics, economics and culture of Russia and the post-socialist countries of Central and Eastern Europe and Eurasia.

- Language tuition is available in Czech, Estonian, Georgian, Hungarian, Kazakh, Polish, Russian and Ukrainian.

- Placement and internship opportunities with external organisations are available at each partner (in Georgia, Hungary, Kazakhstan, Poland, Russia and Ukraine).
