

About the insurance

Tecnológico de Monterrey requires specific coverages and amounts for the international insurance for major medical expenses. There are two options for international insurance coverage:

Get our insurance

We encourage our exchange students to acquire the **SURA** insurance created according to our institution's needs.

General overview

- It can be used in Mexico and any other country the students travel to.
- It provides a special agent available 24/7 in case of any emergency.
- Accidents due to alcohol and/or drug use are not covered.

Cost and payment

The insurance costs approximately 400 USD for one academic term and must be paid during orientation week (online or in the bank).

Acquiring the insurance

We acquire the suggested insurance for the students prior to their arrival, for the length of the academic term. If students want to have the insurance for specific dates, they can acquire it on the insurance website.

Coverage

The insurance is only for major medical expenses. Minor diseases and preexisting conditions are not covered.

It exceeds all the mandatory & suggested coverages indicated in the waiver.

More information about this insurance can be reviewed at:

<https://www.segurossuratravel.com/>

Keep your own insurance

If students already have an insurance with equal or better coverages than the one we offer, they can request to use their own.

Approval of an alternate insurance

Students must deliver the waiver format duly signed and fulfilled by the insurance company.

Required coverage

- Medical expenses 120,000 USD
- Emergency evacuation 120,000 USD
- Repatriation of remains 15,000 USD
- Civil liability 500,000 USD
- Injuries by fire weapons, assault & homicide.
- Guarantee of direct payment.

The mandatory coverages and amounts are non-negotiable, if they are not fully covered the alternate insurance will not be accepted. **SURA** will be acquired automatically.

List of hospitals

We require a list of hospitals in which students can get medical attention without paying upfront in case of an emergency.

Important considerations

By using their own insurance, students take full responsibility in case of any accident or sickness and acknowledge that they will need to contact and deal with their insurance company in case of any eventuality.
