Output

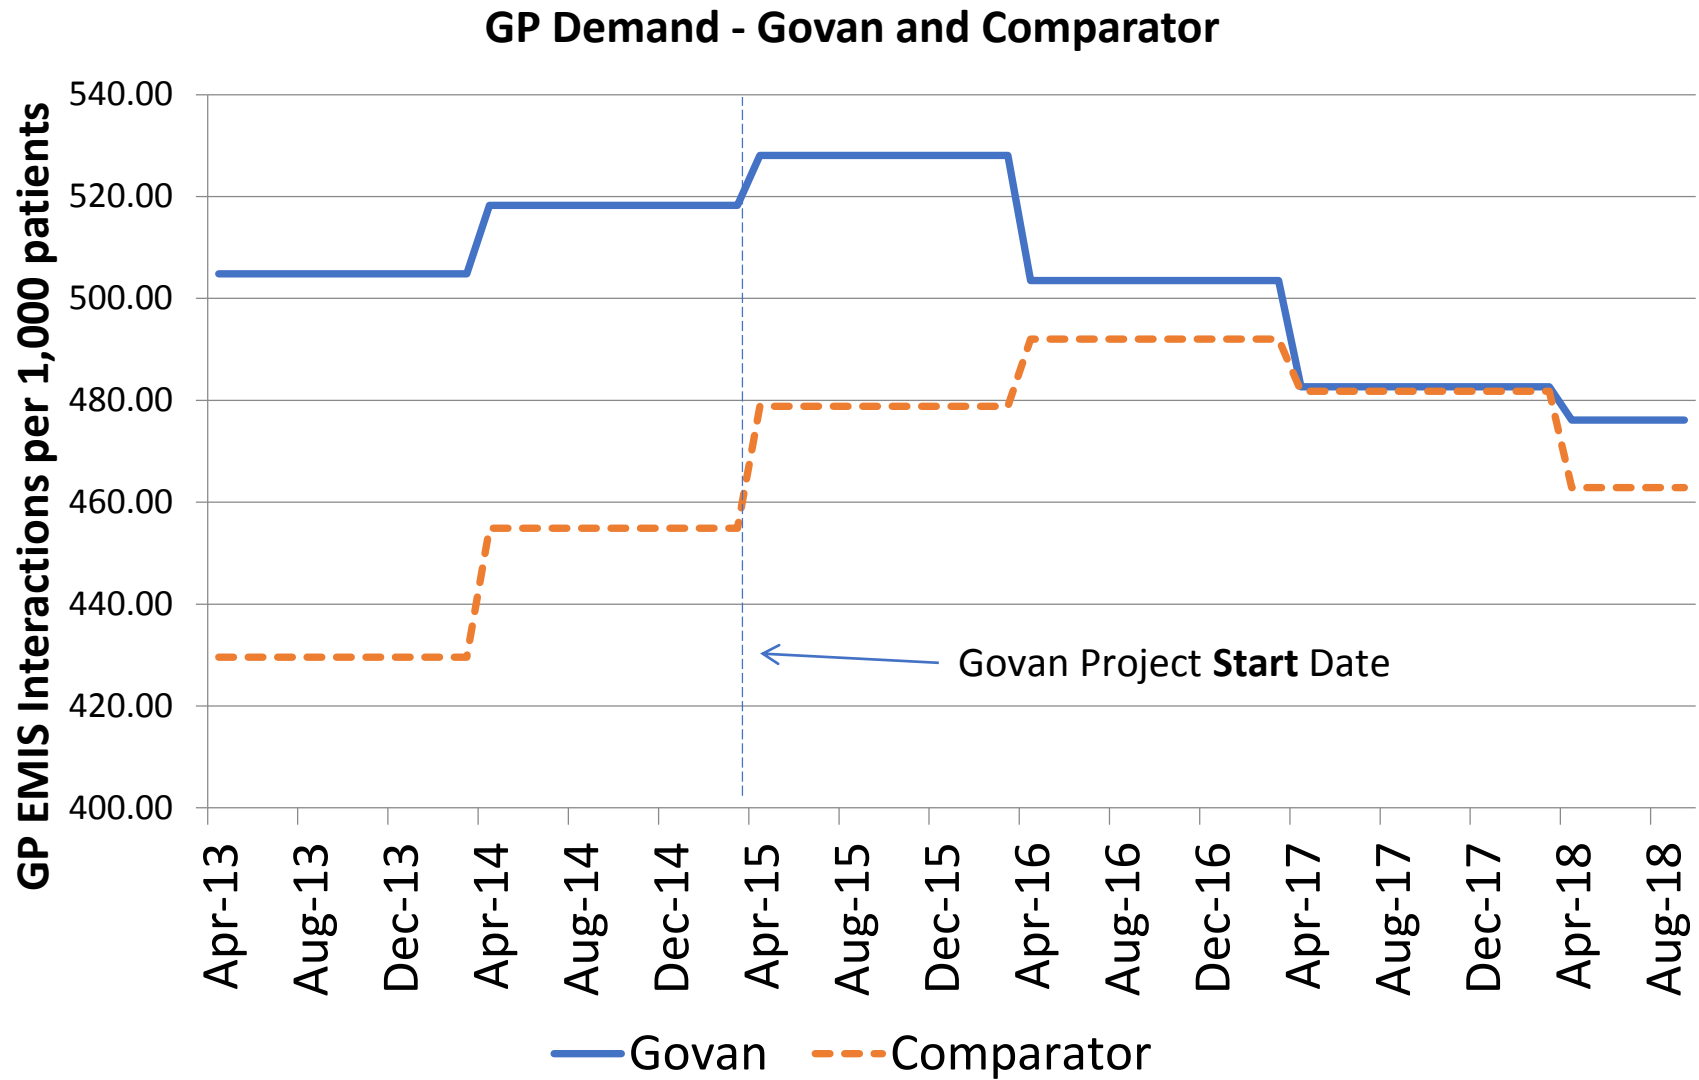

Govan SHIP Project GP Demand

Govan SHIP - Home Visit Reduction

GP Demand

Leadership Roles

- Dr Brian Milmore IT
- Dr Amanda Connelly Unscheduled Care
- Dr Niall Cameron Care of the Elderly
- Dr Gillian Mackenzie Housing
- Dr Anne Mullin Children and Families
- Dr Jane Marshall Mental Health
- Dr Ewan Gray Physiotherapy
- Dr Adrian Petre Pharmacy

SHIP Pharmacy Intervention Jan-Aug 2018

- Total SHIP patients – 316
- Pharmacy review - 151
- Pharmacy interventions – 393
- Intervention list – meds started/stopped , eKIS , BP check , dosage optimised , monitoring , inhaler technique , concordance
- 2.64 interventions per patient
- Cost saving - £6092.10

MSK Physiotherapy in Govan SHIP

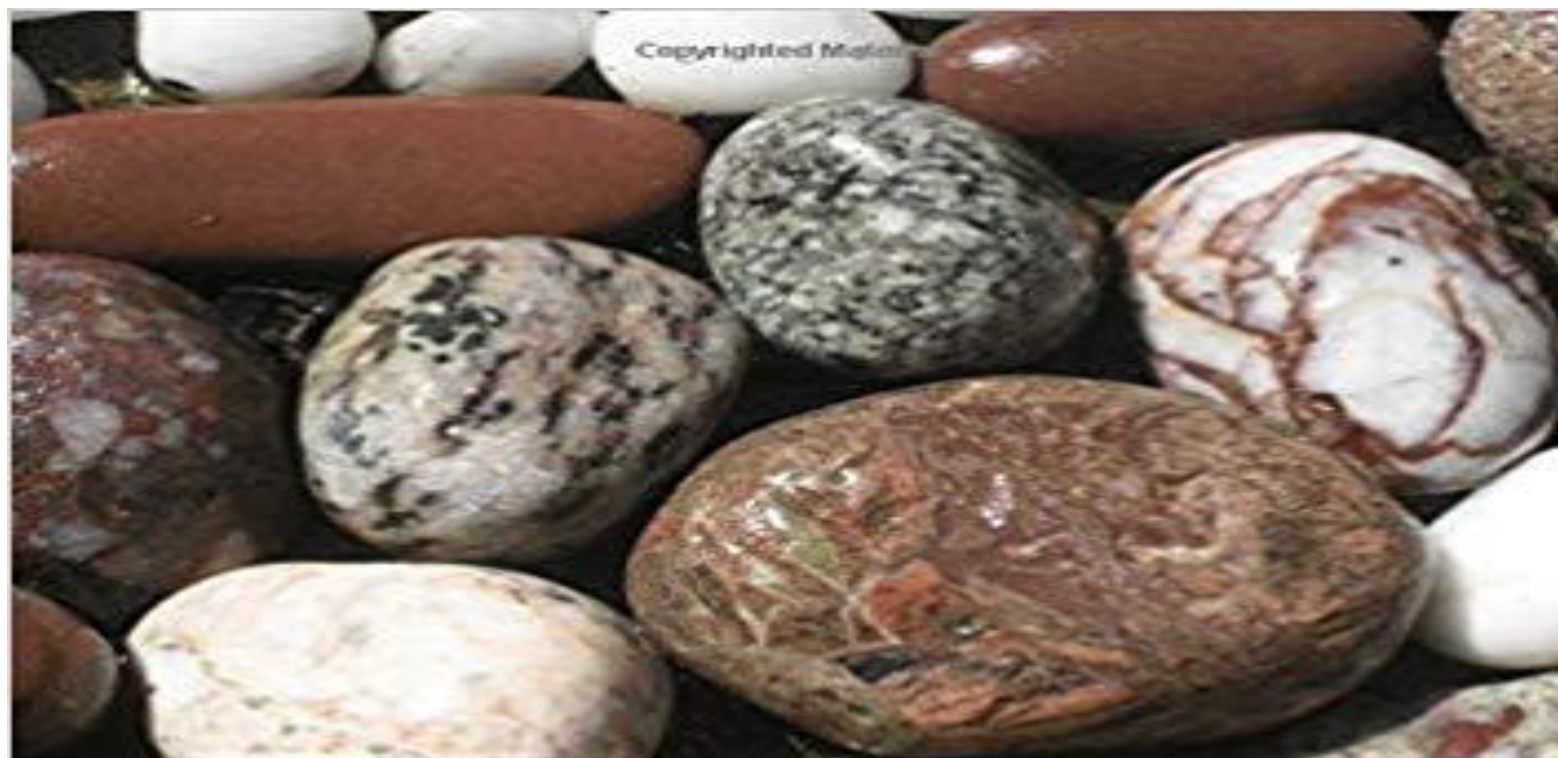

- 2,119 referrals in 1st 12 months
- 32% referred directly by reception. 58% referral by GP (potential to improve)
- Of the GP referrals
 - 44% potentially have gone direct to MSK
 - 56% presented with more than one complaint – therefore 1st appointment with GP appropriate
- 921 MSK patients not needing to see GP
- 72% given advice or home exercise programme
- 8% of all imaging referrals now made by MSK instead of GP with no overall increase from practices
- Meeting project objectives
 - Shift demand (away from GP), *to*
 - right person, right place, right time, *with*
 - Practitioner working to top of licence

Recruitment and Retention

- Career path SHIP locums
- Average age retiring partners
- Govan Health Centre GP vacancies

Collegiate Approach

- Front line clinicians
- Academia
- HSCP
- Social Work
- RCGP
- Scottish Government
- Project manager

The Exceptional Potential of General Practice

Making a Difference in Primary Care
