The Induction programme is a compulsory event, it is designed not only to provide you with information that will aid you throughout your time here at Glasgow; but also provides an opportunity to meet your fellow students in an informal setting before the start of the teaching session, it is also at this point that you will be placed into your lab groups. In addition, the induction programme will provide you with an occasion to meet key staff members, within the school, as well as those from your specific discipline with whom you will be working throughout your degree.

**DATE: WEDNESDAY 18TH SEPTEMBER**
