INTRODUCTION

Welcome to the Glasgow Professional Behavioural Framework. This Framework defines ‘how’ we can all contribute to the success of the organisation and to our own successes as individuals.

These behaviours demonstrate the attitude and approach we should bring to our work and encompasses how we do things, how we treat others and how we expect to be treated.

Staff from across the University identified these behaviours to be those that would help to support us achieve the University’s priorities and continue to make Glasgow a great place to work.

How do the eight behaviours fit with our values?
Values and behaviours are very much linked. The University of Glasgow’s values sit at the heart of everything we do.

The behaviours are what people see and are an expression of what we value. The values are brought to life in each of the eight behaviour clusters.
HOW DO I USE THE FRAMEWORK?

The Framework is designed to articulate the behaviours we should be striving to embody in all our activities, and should be referenced continually in relation to key people activities, such as recruitment, training and the annual Performance Development Review process.

The Framework is made up of eight clusters.

Each cluster outlines the behaviours that are essential in order to be successful in your role.

Additional behaviours that are expected of Managers and Senior Leaders are detailed.

Unhelpful behaviours are also outlined.
