

Teresa Baños

SRC Assessor on Court

Teresa Baños is the SRC's Mental Health Equality Officer for the second year running. As a student representative, Teresa has sat on the Student Experience Committee, as well as on the Mental Health Group. During her time in Council, she has focused on building a culture of prevention within the university, while looking to promote existing mental health resources for students.

Currently undertaking a BSc in Anatomy, Teresa is hoping to take on a master's degree in Biomedical Visualisation in order to keep developing her keen interest in the intersection between science and design.

Alongside her degree, she works as a Support Worker for Clear Links UK, as well as working as a Digital & Social Media Intern in the University's Social Media and Communications Office. She is a committee member of the Anatomy Society, as well as being active in the Nordic Society and the Mountaineering Club.
