Student’s home address

Date

To Whom It May Concern:

We [insert name of parents] give our consent to [insert name of child], our son/daughter, applying to and studying at the University of Glasgow.

We accept that it is our responsibility to make the necessary arrangements for travel to the UK, reception on arrival in the UK, accommodation in the UK and care arrangements in the UK whilst s/he undertakes his/her studies. We give our consent to the above.

We will make travel arrangements for our son/daughter to travel to Glasgow on time to begin their course and will arrange suitable accommodation for them within a reasonable proximity to the University of Glasgow. We give our consent to our child living independently whilst in the UK.

As our child is under the age of 18, we are aware that they must be accompanied by an adult to collect their BRP. We agree to use the University of Glasgow ACL (Alternative Collection Location) code when making our son/daughter’s visa application, in order for their BRP to be collected from the University of Glasgow. This will be our son/daughter’s first official interaction with a member of University staff. We acknowledge that if we do not use the ACL code to collect the BRP from the University, we will either travel to the UK with our child to collect the BRP from the Post Office ourselves or we understand that a member of University staff will have to go to the Post Office with our child, however this may result in delays.

Yours sincerely
