

**Museum object: Item Number - GLAHM: 138366**

1. What do you think this object is?
2. How old do you think this is?
3. Something that is quite surprising about these creatures is the size range. How long do you think they were?
4. Do you know any legends about them?  
Here's a clue for one related legend:

**Challenge:**

Try looking up the object on our online database at <http://collections.gla.ac.uk/> , using the item number **GLAHM: 138366**.

As an additional challenge, can you find how many ammonites are listed on our online collections? Enter the word **Ammonite** into the **Description** box.
