

Helping Year 9 pupils make informed subject choices

Students need a minimum of 3 A-levels (first sitting) to meet the general entry requirements for most degrees at the University of Glasgow. This information sheet outlines which A-level subjects are specifically required for different degrees. Please note some courses may also require specific GCSE qualifications - for this information, a complete list of available degrees and details of current entry requirements please see

www.glasgow.ac.uk/undergraduate

*****The information below relates only to the University of Glasgow*****
