CONDITIONS IN WHICH TURNITIN CAN BE USED IN ONLINE EXAMS:

Turnitin can only be used in 24-hour exams, and where:

- Students are required to submit one final answer
- Students are not required to make multiple submissions to the same submission area (Turnitin will only read the first submission)
- Students are only required to submit typed answers, no drawings/handwritten answers/photographs/numerical answers
- Students have previously used Turnitin

Where used with PGT students, Schools/Institutes/Subjects must ensure students are given the opportunity to practice submission – students can be directed to the practice Moodle for this, but extra effort is required to encourage them and remind them to do so. Conversion courses that combine honours and PGT students should be particularly mindful of whether all students have previously used Turnitin.

Turnitin Setup

- **Submission settings**
  - Require students to click the submit button: Yes
  - Require that students accept the submission statement: No
  - Attempts reopened: Never

- **Group submission settings**

- **Notifications**
