

## UK VLN and UK-VFS Training Events, Spring 2021

We continue with the delivery of bespoke training sessions for VLN and VFS members. Due to the current Coronavirus emergency, our VLN training events continue to be delivered remotely via video links.

Booking is required through an *EventBrite* link for each event. There is a limit of **50 participants**. If you do not plan to attend, please do not book. All bookings close 48 hours from the planned starting times. All times are **UK standard times**.

### 1. Introduction to Automatic Differentiation and Adjoint Methods

(delivered by Mark Woodgate, Glasgow University, **24-25 May 2021**, 14:00 to 15:30, two sessions.

### 2. Introduction to Tilt-Rotor Aeromechanics

(delivered by Wesley Appleton, **9 June 2021**, 14:00-16:00)  
[Link to booking form](#).

#### Instructions

After the registrations are closed, you will receive details of a video link to join. A Certificate of Attendance will be issued to all participants to request one.

Prof. A Filippone (University of Manchester) and Prof. G Barakos (Glasgow University).

For further information, please email: [a.filippone@manchester.ac.uk](mailto:a.filippone@manchester.ac.uk) or [george.barakos@glasgow.ac.uk](mailto:george.barakos@glasgow.ac.uk)
