

TOUR WHITHORN IN VIRTUAL REALITY

With the Oculus VR headset

1. Sanitise the parts that touch your face before and after!
2. Navigate with controllers by pressing the trigger [3].
3. Put on the headset. Adjust the straps and width of lenses [9] if needed so your view is not blurry.

9

Move lenses left or right to find clearest view.

4. You'll find yourself in the browser view of the tour first. Press the sound button [4] for narration.

5. Press the VR button [5] on the side of the window to enter the immersive view.

6. Look around to find information hotspots [1]. Point your controller towards them to show facts about the scene.

7. When you're done with the scene move to the next one. Do this by either finding the appropriate navigation hotspot [2] and clicking on it or point the controller anywhere and press the trigger [3] to reveal navigation [6]. There you can scroll between the available scenes [7].

6

8. Choose "Exit VR" [8] on the navigation to return to browser view.

9. Enjoy the tour and don't forget to clean the headset after use!
