

COLLEGE OF MEDICAL, VETERINARY & LIFE SCIENCES

School of Life Sciences

Induction is an important introduction to University life and all new students are expected to attend. In the coming weeks and months, you will face many things that are new to you, most of which will be exciting but may, at first, seem challenging and potentially confusing. With induction we aim to provide clarity on what you need to know to support and facilitate your successful progression into University life.

The induction will be led by the Head of Learning & Teaching and the Chief Adviser via Zoom. Please familiarise yourself with Zoom in advance. If you are unable to attend the Induction session a recording will be made available in the Induction Moodle.

TUESDAY, 14 SEPTEMBER 2021
