

GUSA Council Member - Nomination Form & Manifesto 2025/26

Position:	Outreach Convenor
Name:	Louis Cooper
Club:	Boxing

Louis Cooper GUSA Outreach Convenor 2025/26 Manifesto and Key Roles

All GUSA clubs to have access to outreach and community opportunities - as well as an outreach convenor in club committees

My main aim is to ensure and establish the opportunity for clubs to be involved in outreach and community projects relating to their sport. I would encourage clubs to create an outreach convenor who I would intend to work with on a day to day basis in setting up and performing outreach actions in the community. As well as this I aim to offer all clubs and all members the opportunity to be involved in outreach by providing all the necessary requirements and opportunities to achieve this for them and their sport, that are accessible to me.

Development of Sport for International Students

I am hoping to increase the amount of international students who are studying at Glasgow University that join sports clubs. I aim to work with the international student union and student services to promote clubs and events to help enhance their time at our university through sport. As well as working with the University incoming exchange students committee to increase the promotion of opportunity for sports for exchange students too. By encouraging international students to get involved in sports it hopefully removes any stigmas around getting involved in sports they may have.

Awards and Qualifications for those performing in outreach duties

I hope to work alongside various organisations to assist in getting those involved in outreach opportunities qualifications such as coaching badges as well as volunteering awards as a reward for their hard work. I hope to create in partnership with the rest of the GUSA council, an outreach recognition award to be presented to the person with the best contributions and representation of Sport and Glasgow University within the local community.

Development of relationships with other Scottish Universities and Local facilities

I aim to develop GUSA's relationship with other Scottish Universities and local facilities, to create more opportunities for access to sports and opportunities for students at Glasgow University within Sport. Subsequently I will aim to increase the availability of training facilities for clubs and outreach opportunities within Glasgow's community. As well as offering the opportunity to train or try sports which Glasgow currently may not be offered within our own university.

As well as making this I aim to make the outreach programs more accessible and more widely known, creating a larger social media presence and club engagement with the program to increase participation and involvement by clubs and members
