

NEWSLETTER

JULY 2022

The Partnership for Change Project is now well underway.

New Team Members ...

Judith Fisher - Project Manager
Lindsay Dalgarno - Qualitative Researcher
Sharon Graham - Research Assistant

All Parent Collaborators have been recruited and meetings with both groups, in Bromley and Glasgow, have begun.

Meanwhile, two Infant & Family Team Development days have taken place, as well as stakeholder engagement workshops, interviews and focus groups on both locations.

A Poverty Aware Practice working group has been created and Intervention Development training delivered by the NSPCC.

The next Development Day will give the opportunity to bring together all the partners to share progress and move forward with the work of co-production.
