# Graduate Recruitment Survey

Have you been involved with graduate recruitment in the last 3 years? Researchers at the University of Reading are interested in understanding how employers recruit for graduate roles and what technical and soft skills graduates need in a modern and post-pandemic labour market. You can help by filling in our survey which will take around 10-15 minutes and by sharing our survey.

As a thank you, you will have the opportunity to enter a prize draw to win a £50 gift voucher.

Participation is voluntary and all data collected will be anonymous.

This survey is carried out as part of the EU Funded Project Employability in Policy Development (EPD) https://www.gla.ac.uk/research/az/epd/ and has received ethical approval*
