

Theo Frater

SRC Assessor

Theo was elected to the Student Representative Council in October 2022 as a General Representative. He was subsequently elected at the first council meeting to sit on the University Court as the SRC Court Assessor.

As a third year Business Management & Politics student, Theo's academic interests include accountability, democracy and decision making in public institutions, the interface between business and government, and international relations particularly with regard to security and democracy. He hopes he can effectively represent the student body's views to Court with a view towards transparency and accountability, and show the value of student representation at a high level in the University.

Theo was born just outside of and has lived much of his life in Glasgow. Outwith his studies, Theo is a member of the Glasgow University Mountaineering Club, climbing and walking throughout Scotland and beyond. He is also a member of the UG Motorcycling Society, was an SRC Welcome Helper in 2022 and regularly participates in the University's social calendar.
