Established in 1451

26,000 students from over 140 countries

More than 750 students from the USA

Ranked in the top 1% of universities in the world

63rd QS World University Rankings 2016

94.9% of students in employment or further study 6 months after graduation

World changing alumni from pioneer of television John Logie Baird to economist Adam Smith

A member of the Russell Group of leading UK research universities

A National Geographic must-visit city 2016

WELCOME TO THE WORLD CHANGING UNIVERSITY OF GLASGOW

For more than five centuries, we’ve been pushing the boundaries of what’s possible, nurturing the talents of seven Nobel laureates, one Prime Minister and Scotland’s current First Minister.

International students fit right in here. More than 30% of our population comes from outside of the UK, with typically more than 750 students travelling to us from the USA each year.

Join them and see who you could become.
Autumn comes to Glasgow

Baby you’re a firework

Catching some rays

Lost in the library

On so twinkly cloisters

Charity custard bath

World’s friendliest people

First Minister thanks UofG

Proud UofG graduates

Saturday night on Ashton Lane

Team UofG on University Challenge

Flying the flag

Hogwarts?

Let’s dance

UofG North American officers on the road

Valentine’s hugs from Gus

Pipes are calling

Life at Glasgow
Neighbouring cities
Our location in the Central Belt makes it easy for you to explore Scotland’s other cities. Check out the world’s largest arts festival in Edinburgh, uncover Stirling’s historic buildings and castle, or go hunting for the Loch Ness monster near Inverness.

Loch Lomond
Magnificent Loch Lomond is the focal point of Scotland’s first national park and is the largest land-locked body of water on the UK mainland. Located just 40 minutes from Glasgow, it’s a popular day-trip destination thanks to the opportunities there for water sports, fishing, hiking and camping.

Getting outdoors
There are footpaths, bike trails, hill climbs and mountain adventures to suit all levels of explorer. We’re surrounded by beaches, offering opportunities for water sport activities, relaxing strolls and marine life spotting. Our iconic Munros (mountains over 3,000 feet) have spectacular views, while Scotland’s many coastal islands each have their own unique character, landscape and wildlife, so get out there among our scenic and remote habitats!

Culture and events
With an eclectic range of theatre and dance venues, a captivating and award-winning literary and art scene, and architecture that’s as striking as it is unique – you won’t run out of things to experience in Scotland. And there’s an exciting range of events every year, from Highland Games and Glasgow International Comedy Festival, to the Edinburgh International Festivals, Piping Live and the Scottish Open golf tournament.

More information: visitscotland.com

As well as having more world-class universities per head of the population than anywhere else in the world, Scotland has lots to offer you - beautiful scenery, ancient castles and amazing cultural attractions.

WHY SCOTLAND?

George Square in the heart of Glasgow city centre
Ben A'an, the Scottish Trossachs
Luskentyre beach on the Isle of Harris
The Kelpies, Helix Park, near Falkirk

Balblair Mountain Bike Trail, Scottish Highlands

8
Getting around
Despite being Scotland’s biggest city, it’s easy to travel around Glasgow, whether you choose to walk, take the bus, or use the subway. Our subway system is the third oldest in the world and known affectionately as ‘the Clockwork Orange.’

The city’s excellent transport links mean you’ll be well connected to the rest of the UK and the world beyond too.

Shopping
Glasgow is consistently voted the top place to shop in the UK outside London. The city’s huge retail centre has a ‘Style Mile’ that includes shops like Topshop, Nike and the Apple Store.

Entertainment
As the UK’s first UNESCO City of Music, Glasgow hosts around 130 music events every week. You can catch everyone from global superstars to local indie bands. The city’s nightlife is unrivalled, with more than 700 bars, pubs and nightclubs, plus seven cinemas, including the tallest in Europe.

Parks
If you’re looking to relax and escape the city buzz, you’ll have plenty of options. With more than 90 parks and public gardens, Glasgow has more green space per head of population than any other European city.

West End
The University’s main campus is nestled within Glasgow’s cosy West End, which buzzes with cafés, bars, vintage boutiques and cultural attractions. Entertainment ranges from the Grosvenor Cinema and Botanic Gardens, to Oran Mór – a converted church that offers lunchtime theatre known as a Play, a Pie and a Pint.

There’s also a fantastic range of restaurants that reflects Glasgow’s diverse population. Whether you’d like an amazing Asian kitchen, a scoop of Italian ice cream, or a plate of haggis – Scotland’s national dish – we won’t disappoint you. Many places offer student discount too.

With cultural attractions, gorgeous architecture, fantastic shopping, friendly people and a year-round programme of world-class events, it’s easy to fall in love with Glasgow.

LOVE THIS CITY

With cultural attractions, gorgeous architecture, fantastic shopping, friendly people and a year-round programme of world-class events, it’s easy to fall in love with Glasgow.
STUDENT LIFE

We understand that moving to a new country can be a daunting experience. And it’s not just your education, it’s your life. So at Glasgow, we create a world-class and friendly environment where you can feel inspired.

Accommodation

Our accommodation office can help you to find a suitable place to live and we can guarantee you a place in one of our University residences or apartments as long as you apply on time. There are several self-catering options to choose from, all within a 15-30 minute walk of the campus.

Benefits include

• trained pastoral staff living on site
• group insurance cover for your belongings
• membership of the University’s sport and recreation facilities
• 24/7 internet access incorporating wi-fi in all bedrooms
• managed on-site coin-operated laundries.

Accommodation fees range from around $4,660 per year for a shared room and $5,810 per year for a single room with a private bathroom in self-catered student housing, to around $9,185 per year for a single bedroom with a private bathroom in catered accommodation.

(This is based on a conversion rate of 1 USD = 0.75GBP).

Tel: +44 (0)141 330 4743
Email: accom@glasgow.ac.uk
glasgow.ac.uk/accommodation

Library

Open daily from 7.15am to 2.00am with online access 24/7, the library offers 12 wi-fi enabled floors, 2.5 million books and journals and hundreds of PCs.

See: glasgow.ac.uk/library

Get involved

Becoming a member of our University unions, Council, clubs or media can be a great way to discover what you’re good at, pursue your passions, meet like-minded people and boost your employability. We have more than 250 societies for you to choose from, including everything from the Bad Movie Society and Dancemania to the Photography Society, so there’s bound to be something that interests you.

See: glasgowstudent.net/clubs

Careers Service

From the moment you arrive at Glasgow, you will hear about the wide variety of career events and opportunities. You’ll have the chance to

• meet global recruiters on campus
• learn about volunteering organisations, work experience and part-time work
• gain access to expert guidance and specialised information to help you make informed choices about your future
• get advice from our dedicated International Careers Adviser
• find placements through our Internship Hub

See: glasgow.ac.uk/internshiphub

Your future

Glasgow graduates are in high demand with world-leading employers from all over the globe. Recent North American graduates have found employment in Yale University, UNICEF, World Bank, GlaxoSmithKline and the Bank of America.

Try out student life at Glasgow

Our international summer school is a great way of finding out what life is like at Glasgow before deciding to study here longer term. You can spend between three and eight weeks with us during your holidays, depending on your subject of interest.

www.glasgow.ac.uk/iss
Sport for fun
From the serious to the social side of sport, love it all at Glasgow. We have more than 15,000 members of our sports facilities and approximately 4,000 students participate in our 51 different sports clubs. With so many activities to try and plenty of post-exertion socialising opportunities available, you can get fit and have fun at the same time.

Sport for fitness
Our two purpose-built exercise centres, including a £10m extension opened in 2015, are open seven days a week, early until late. Facilities include:
• a six-lane, 25m heated swimming pool
• sauna and steam room
• squash courts
• Pulse – cardio and resistance gym
• PowerPlay – weights, conditioning and functional training gym
• sports hall with Fanzone
• Revolve - indoor cycling studio
• activity hall and studios
• six grass and two all-weather synthetic pitches
• cricket oval
• tennis courts

glasgow.ac.uk/sport

Sport for the great outdoors
If you like some fresh air in your fitness regime then you’re in the right place. Clubs such as the Hares and Hounds offer road, cross-country and hill-training runs for all standards, or you could tackle some of Scotland’s fantastic mountain trails with the cycling club. You could even find yourself skydiving, surfing, snowboarding or potholing in Scotland and beyond.

Sport for team players
With excellent facilities for team sports at the University’s Garscube Sports Complex and a number of friendly clubs open to new members, you could find yourself playing, among others: football, basketball, lacrosse, netball, golf, soccer, hockey or volleyball. Our athletes and teams compete against the best in the UK with great success.

Support for talented athletes
If you’re a talented athlete, we offer a range of services to support you to manage the demands of competing in sport at the highest level while undertaking your degree. You can apply for a number of sports bursaries and scholarships.

glasgow.ac.uk/sport/talentedathlete

Whether you’re a world-class athlete or a complete beginner, Glasgow has the facilities and expertise to keep you motivated.
Before you arrive
Our International Student Support Team can give you advice on topics including:
• immigration and visa
• employment
• finance
• welfare and personal issues.
Find a pre-departure checklist at glasgow.ac.uk/international/support/before

On arrival at Glasgow
Airport arrival
During specific dates in September, the University’s Welcome Team will be at Glasgow Airport to direct you to our transport service. For details of when our bus service will be running, see our website. glasgow.ac.uk/international/support

International student orientation programme
Our orientation programme provides information on the services available to you. You will get the chance to meet fellow students at a social event and take part in a city bus tour. A shorter orientation also runs in January – for details, see our website. glasgow.ac.uk/international/support

Freshers’ Week
Freshers’ Week is a great opportunity to meet new people. It is run by our four student bodies and includes bands and DJs, campus tours, sports taster sessions and the Freshers’ Fair, where you can find out about our range of student societies. freshersweek.glasgowstudent.net

During term time at Glasgow
International Student Support
Our International Student Advisers can help you with the practical aspects of living and studying in Glasgow, offering confidential advice on a range of matters. We also organise orientation programmes, workshops and activities for you and your family if they are in Glasgow with you. glasgow.ac.uk/international/support

Counselling & Psychological Services
We offer a confidential service to all registered students experiencing emotional and/or psychological issues. glasgow.ac.uk/counselling

Advisers of Studies
Your Adviser or Advising team can help you to choose an appropriate syllabus. They can also offer help on more general matters, such as examination regulations, or absences due to ill-health.

Disability Service
We welcome enquiries from any applicant who has a disability or chronic health condition, including dyslexia; or any other specific learning difficulty, mental health conditions, sensory impairments or access and mobility difficulties. Our Disability Service can arrange support strategies. glasgow.ac.uk/disability

From before you begin your journey to Glasgow, we work hard to make you feel at home. Glaswegians are famed for their friendliness and we have a range of specialist staff dedicated to your needs.

SUPPORT ALL THE WAY

Ruby Elson from California
MA (Soc Sci) Politics
My life has been changed for the better because of UofG! Its beautiful campus, engaging classes, and phenomenal professors are just the beginning of the incredible experience that is being a UofG student. @UofGlasgow #HelloUofG

The Fraser Building is your one-stop shop for a range of student services including the Student Services Enquiry Team, a medical practice, book store and café
The benefits
Many Glasgow students complete part of their degree in another country. Courses taken overseas through one of our approved exchange programmes form part of your degree without adding an extra year or semester, there are no additional tuition fees at the overseas university, and there are many additional benefits. You can
• gain a new perspective on your studies
• develop a more international outlook
• travel to new and amazing places
• make friends from all over the world
• enhance your CV.

Study abroad for a few weeks, up to a year
You can choose from 180 destinations across the globe. We have more than 120 partners across Europe and more than 50 international partners in Argentina, Australia, Azerbaijan, Brazil, Chile, China, Hong Kong, Japan, Korea, Malaysia, Mexico, New Zealand, Singapore and South Africa.

You don’t need to speak a foreign language, as a lot of our partners teach in English. You can, however, take free language courses here to prepare for your time abroad and you can continue learning the language throughout your placement abroad.

Our study exchange programme is usually for a semester or a full year, but we offer new short-term mobility opportunities such as summer schools abroad and other international activities via our network of partners.

Work abroad as part of your degree
Some degree programmes support work placements, which can take place in any company or institution abroad. Speak to your adviser of studies to find out more.

Funding
You are registered at the University of Glasgow throughout your time abroad, so there is no additional tuition fee at the overseas partner. If you choose a European destination, the Erasmus+ Programme can provide a financial contribution towards travel and living costs during your time abroad from 2 to 12 months.

The Erasmus+ programme is funded by the European Union and supports students who wish to study or work in another country in Europe as part of their degree programme. A range of scholarships is also available for non-European destinations and short-term placements.

glasgow.ac.uk/studyabroad

Looking for an inspiring, confidence boosting and even life changing experience? Our Study Abroad programme can offer you exciting opportunities. From Europe to Australia, the world is yours to explore.

Amy studied abroad at Pontificia Universidad Catolica De Chile in Santiago, Chile
Alexandra on Erasmus exchange in France
Laurynas studied abroad at Nanyang Technological University in Singapore
The main undergraduate degrees we award are:

**Professional degree programmes**
- Bachelor of Accountancy (BAcc)
- Bachelor of Dental Surgery (BDS)
- Bachelor of Divinity (BD)
- Bachelor of Engineering (BEng)
- Bachelor of Laws (LLB)
- Bachelor of Medicine, Bachelor of Surgery (MBChB)
- Bachelor of Music (BMus)
- Bachelor of Nursing (BN)
- Bachelor of Technological Education (BTechEd)
- Bachelor of Veterinary Medicine & Surgery (BVMS)
- Master of Education (MEduc)
- Master of Engineering (MEng)

**Flexible degree programmes**
- Bachelor of Science (BSc)
- Master of Arts (MA)
- Master of Arts (MA) (Social Sciences)
- Master in Science (MSci)

**Professional degree programmes**
These degrees follow a set curriculum to meet the requirements of the relevant professional organisation so that you’re fully prepared to enter your chosen profession after you graduate. They are usually completed in four or five years.

**Flexible degree programmes**
If you apply to these degree programmes, you’ll be offered a flexible degree structure, which means you are not committed to a completely prescribed selection of subjects from the outset of your degree. These degrees normally take four years to complete.

Degrees that involve a modern language take five years to complete because they include a language year abroad.

The table opposite demonstrates the level of flexibility of our degrees, and the decisions that you must make prior to being admitted to, and during your time at, Glasgow.

**Progression to Honours level**
Being admitted on a particular UCAS code does not mean that you will automatically progress to Honours level in that subject or subjects. In most cases, a decision will be made at the end of your second (or sometimes third) year about whether you will be permitted to progress to Honours level. Decisions about your progression will be based on your academic performance. The entry threshold to Honours varies by School/College and may change on a year-to-year basis.

**A note on names**
In Scottish ancient universities, an undergraduate Honours-level degree in the Arts is called a Master of Arts (MA) or a Master of Arts (Social Sciences). This should not be confused with a postgraduate qualification.

---

**Example of MA Joint Honours degree path**
(The MA (SocSci) and BSc Joint Honours degree programmes follow a similar format).

<table>

HOW TO APPLY
UNDERGRADUATE

Apply using ONE of either the Common Application* or the Universities & Colleges Admissions System (UCAS).

1 Choose your programme
Browse the degree programmes in this guide or visit glasgow.ac.uk/undergraduate

2 Check the entry requirements
For more information, see right. Please note: every application is reviewed independently. We will accept a mixture of qualifications to make an offer.

3 Complete your application
Apply either through www.commonapp.org or www.ucas.com using UCAS code: G28*
- Apply by 15 January
- Final deadline 30 June
- For Dentistry, Medicine and Veterinary Medicine programmes, apply by 15 October of the previous year

4 Interviews/Auditions for select subjects
An interview will be part of the selection process for: Dentistry, Medicine, Music, Nursing, Teaching, and Veterinary Medicine & Surgery.

5 You’ll hear from us
We’ll be in touch with the outcome of your application.

Any problems? Contact student.recruitment@glasgow.ac.uk

Entry requirements
Applicants with International Baccalaureate qualifications:
Applications with 34-36 points on the full diploma will be considered for direct admission to most schools, but there are certain exceptions.

Applicants with a USA High School Diploma:
Method 1
You must achieve
- cumulative 3.0 GPA
- SAT score of 1800 (minimum 600 in each section)
- or redesigned SAT score of 1280

Method 2
You must achieve
- 3 AP examinations (in relevant subjects): 4+
- 2 SAT subject tests (in relevant subjects): 600+

Applicants from a four-year institution or community college:
If you have at least one year of full-time college credits you will be considered for admission to an undergraduate programme on the basis of having a 3.0 cumulative GPA. Some degrees may have additional requirements.

If you are interested in gaining advanced entry (beginning the course in Year 2 or higher), you must show that your previous studies match what has been covered at Glasgow.
More information: glasgow.ac.uk/undergraduate/choosingyourdegree/advancedentry

ENROL ON YOUR COURSES
If you choose to study for a taught degree programme, you can work towards a Masters degree (e.g., MSc, LLM, MBA, MLitt), a Postgraduate Diploma, or a Postgraduate Certificate. With over 270 options available, you’re sure to find something that’s just right for you. Taught programmes are usually 12 months in duration for Masters level study and are made up of a series of core and optional courses before completion of a dissertation or project. You can view our taught postgraduate programmes at glasgow.ac.uk/postgraduate/taught.

Postgraduate research degrees can generally be divided into Research Masters (MRes) and Doctoral (PhD) degrees. They allow you to undertake a research project under the guidance of an academic supervisor. Admissions to research degrees are usually based on the submission of a research proposal. You can read more about postgraduate research at glasgow.ac.uk/research/opportunities.

Taught Postgraduate Programmes

If you choose to study for a taught degree programme, you can work towards a Masters degree (e.g., MSc, LLM, MBA, MLitt), a Postgraduate Diploma, or a Postgraduate Certificate. With over 270 options available, you’re sure to find something that’s just right for you. Taught programmes are usually 12 months in duration for Masters level study and are made up of a series of core and optional courses before completion of a dissertation or project. You can view our taught postgraduate programmes at glasgow.ac.uk/postgraduate/taught.

Research Programmes

Postgraduate research degrees can generally be divided into Research Masters (MRes) and Doctoral (PhD) degrees. They allow you to undertake a research project under the guidance of an academic supervisor. Admissions to research degrees are usually based on the submission of a research proposal. You can read more about postgraduate research at glasgow.ac.uk/research/opportunities.

Subject A-Z

Subjects you can study at postgraduate level are:
- Accounting/Economics/Finance
- Business and Management
- Chemistry
- Computing Science
- Education
- Engineering
- English/English Literature
- Geography/Earth Sciences
- Humanities (Archaeology, Celtic & Gaelic, Classics, Philosophy, History, Art History)
- Law
- Life Sciences (Anatomy, Biological Science, Immunology, Physiology, Zoology)
- Mathematics and Statistics
- Medicine/Dentistry/Veterinary Medicine
- Modern Languages and Cultures
- Music/Creative Arts/Film Studies
- Physics/Astronomy
- Psychology
- Social/Political Science.

You can find the full A-Z of all postgraduate programmes at glasgow.ac.uk/postgraduate.

Online Programmes

Our online postgraduate programmes offer the same excellent teaching and assessment standards as their campus-based equivalents and lead to the same qualifications, awarded by the University of Glasgow. Find out more at glasgow.ac.uk/study/online.

Entry requirements

To be considered for one of our taught Masters degrees, you should hold an undergraduate four-year bachelor degree, with a minimum GPA of 3.0 from an accredited university or college in the USA. You should also have high grades in relevant individual subjects.

How to apply

The quickest and easiest way to apply is to use our online application form. There are different forms for postgraduate taught and postgraduate research degrees. Each will guide you through the process and can be found at glasgow.ac.uk/postgraduate.

Taught programmes

The application deadline is towards the end of July for September entry; please check our website for exact dates and exceptions. A selection of programmes, including our Masters in Veterinary Public Health, offer January entry. Application deadlines vary. For more information, visit glasgow.ac.uk/postgraduate/january.

Research programmes

Application deadlines vary across the University. Details can be found on the relevant degree programme page.

All postgraduate research students are allocated a supervisor, who provides academic support and research mentoring. You may want to identify a potential supervisor and contact them to discuss your research proposal before you apply. You can find relevant academic staff at glasgow.ac.uk/research/opportunities.

Required documents

Applications for programmes delivered online will be accepted until the commencement of the programmes.

Required documents include:
- Final or current undergraduate degree transcript - scanned copy in colour of the original document
- Two references on headed paper (academic and/or professional – see specific programme entry requirements)
- Copy of your passport (photo page)
- Any additional document(s) listed on the specific programme listing at glasgow.ac.uk/postgraduate.

For example, if you are applying for a research programme, you’ll need to include your research proposal, CV, samples of written work as per requirements for each subject area.
FEES AND FINANCE

We believe that academic excellence should be supported. If you want to join us, you’ll be pleased to know that there’s a range of financial help available.

Tuition fees
Full-time tuition fees start at $21,120* for Arts and Social Sciences students. For a full list of our tuition fees, see glasgow.ac.uk/fees
*this is based on a conversion rate of 1 USD = 0.75GBP

Cost of living
Everyone has different spending habits, but as a general guide, we would recommend allowing around $15,120* for a single student per year and a minimum of $20,000 for a married couple. For each child add $4,050 per year.

Cost per month*
Accommodation $620
Food $240
Clothes $95
Bus, underground, taxi fares $55
Laundry, stationery, stamps, toiletries $40
Telephone/Internet $55
Entertainment $160

In addition to the above, you should include the following amounts annually: Books: $530; UK Travel: $400.

Scholarships
We offer a wide range of scholarships for students coming from America. For example, if you’re a postgraduate student from the USA, you will be automatically considered for merit scholarships worth £5,000-£10,000, including the Chancellor Award and International Leadership Awards. We also have partnerships with the Marshall Scholarship and Fulbright Commission to support postgraduate study.

If you’re an undergraduate, there’s an opportunity for you to receive the University’s Final Year Fee Waiver Scholarship, worth £20,000.

For a full list of scholarships including eligibility and how to apply, see: glasgow.ac.uk/scholarships

Federal Aid
We accept aid through FAFSA and are one of the few UK universities to offer a dedicated US Federal Aid Support Officer. Contact: Carol.Barnett@glasgow.ac.uk
Federal Aid registration code (FAFSA): 008383
glasgow.ac.uk/services/registry/finance/federalloans

Healthcare
All international students studying in Scotland are eligible for medical treatment under the National Health Service (NHS), including prescriptions. All students are covered under the service and pay a one-time Immigration Healthcare Surcharge when applying for a student visa.
Meet us in the USA

We have dedicated International Officers based in the USA. They frequently travel around the country, meeting prospective students and are on hand to answer any of your questions about entry requirements, admissions, or anything else you’d like to know.

NAME:
Sarah Bacom
STUDIES:
Joint Honours
Geography and Geology
FROM:
Born in Nashville, Tennessee and now a resident of Portland, Oregon.

Settling in
I came here for the first time during International Students’ Week by myself. I didn’t know anyone in the country and it was such an incredible experience! I always recommend going abroad to my friends now, even if it’s a semester or a year, because it teaches you so much about yourself – what you’re capable of and how resilient you can be.

The city
For Americans, I think that if you had to match Glasgow up with any city, it would be Portland or Seattle. There’s something for everyone here. I’ve taken photography classes and pottery and I’m also taking classes in Dutch. It’s a dynamic place – there’s always something going on and it’s always changing, so the chances are that no matter what weird interest you have that you think no-one else does, you’ll find someone who has it here as well!

Student support
You should come to Glasgow. The University is just so incredible! There are so many services available for international students – workshops, fieldtrips, interview preparation and career services. International Student Support is amazing.

To find out when we’ll next be visiting a city or town near you, see: glasgow.ac.uk/international/meetusinyourcountry
