POSTGRADUATE RESEARCH SCHOLARSHIPS 2018-19

SCHOLARSHIP	ELIGIBILITY	SUBJECT	AWARD	DEADLINE
Bank Studentships	Home/EU and International	These highly competitive scholarships are available to applicants applying to the School of Chemistry.	Research Council stipend and fees for 3.5 years	No fixed deadline
CENSIS Engineering Doctorate in Sensors and Imaging Systems	Home/EU	CENSIS, the Innovation Centre for Sensor and Imaging Systems, provides funding for EngD scholarships.	Enhanced Research Council stipend and fees for 4 years	Various
EPSRC	Home/EU	Funding Council priority areas inc. the digital economy, energy, nanoscience, physics and astronomy etc	Research Council stipend and fees for 3.5 years	31.01.18
EPSRC Centre for Integrative Sensing and Measurement	Home/EU	Multidisciplinary research spanning Physics, Engineering and Chemistry. Partnership with University of Edinburgh.	Research Council stipend and fees for 4 years	31.01.18 (or until filled)
EPSRC Centre in Photonic Integration and Advanced Data Storage	Home/EU	Developing photonic integration technologies related to the magnetic storage of digital information. Partnership with Queens University, Belfast.	Research Council stipend and fees for 4 years	See www.ctd-piads.ac.uk
EPSRC Engineering Doctorate in Applied Photonics	Home/EU	The Centre for Doctoral Training aims to recruit EngD students to integrate photonic and electronic devices, circuits and systems to deliver products and processes with high added value. In partnership with various Scottish Universities.	Enhanced Research Council stipend and fees for 4 years	Various
ESRC	Home/EU	Human Geography and Psychology	Research Council stipend and fees for 3 years	See www.esrc.ac.uk
Graduate School	Home/EU and International	All areas across the College	Research Council stipend and fees for 3.5 years	31.01.18
IAPETUS (Natural Environment Research Council)	Home/EU	IAPETUS is the North East of England's and Scotland's multidisciplinary Doctoral Training Partnership (DTP) for the environmental sciences, which is funded and accredited by NERC.	Research Council stipend and fees for 3-4 years	See iapetus.ac.uk
Industrial Scholarships	Home/EU	The Graduate School works closely with a number of high-profile industrial partners to offer scholarships which meet the needs of industry.	Research Council stipend and fees for 3.5 years	Various
Lord Kelvin Adam Smith Studentships	Home/EU and International	The prestigious Lord Kelvin/Adam Smith Scholarship scheme supports new partnerships between members of staff and will offer outstanding research students both from home and abroad the opportunity to undertake doctoral training in the context of cutting edge interdisciplinary research projects.	Research Council stipend and fees for 4 years	13.01.18 (specific projects online from late Nov)
QuantIC Industrial Studentships	Home/EU	Applied Quantum Technology. Projects will span Physics to Computing Science and Engineering, from components to systems and are focused on an industry-led challenge. See www.quantica.a.uk for more info.	Research Council Award stipend and fees for 3.5 years	Various
STFC	Home/EU	Physics and Astronomy	Research Council stipend and fees for 3.5 years	Various
SUPA Prize Scholarships	Home/EU and International	Physics and Astronomy	Research Council stipend and fees for 3.5 years	31.01.18

Enquiries regarding all scholarships can be directed to scieng-gradschool@glasgow.ac.uk

Details about the application process and other specific studentship projects are advised as and when available:
