Abomasal Dissection

http://www.glasgow.ac.uk/services/education/elearning/abomasaldissection/

The University offers a 15% discount on all Postgraduate Research and Postgraduate Taught programmes to applicants. This includes University of Glasgow applicants and those who have completed a Baccalaureate programme or the Degree Programme at the University of Glasgow. The discount applies to all full-time, part-time and online programmes.

Humanitarian Scholarships

http://www.glasgow.ac.uk/services/education/financialsupport/humanitarian/

The University of Glasgow is offering a scholarship of up to £5,000 per year to students who are fleeing conflict or who are facing challenges in progressing onto higher education. This scholarship is open to postgraduate students and postgraduate students at the University of Glasgow applying for any course. The scholarship covers the full cost of tuition fees for the duration of your programme and provides an additional £5,000 per year stipend. If you qualify for undergraduate accommodation, you may also be eligible for the accommodation fee waiver. For more information on the accommodation fee waiver, please see the Accommodation Handbook section on the website.

PDIF Excellence Scholarships

http://www.glasgow.ac.uk/services/education/financialsupport/excellence/

The University of Glasgow has a list of PDIF Excellence Awards available to UK and EU students. Students can apply to students a minimum of the University’s college and are awarded as a funding fee deduction.

Postgraduate Talent Scholarships

http://www.glasgow.ac.uk/services/education/financialsupport/talent/

The University of Glasgow awards Postgraduate Talent Scholarships each academic year to outstanding applicants who successfully apply to study at the University. These scholarships cover the full cost of tuition fees and are available to students undertaking a full-time Taught Master’s programme in any of the University’s colleges.
SCHOLARSHIPS AND FUNDING

External funding

Carnegie Cameron Prolonged Academic

Carnegie Cameron Prolonged Academic Bursaries are awarded to full-time students who have exhausted all other sources of funding. The bursary is for full-time undergraduate students who have been offered a place on a full-time undergraduate programme and who have found it difficult to secure any other source of funding.

Carnegie Cameron Bursaries for academic year 2018-19 were awarded automatically following the Scottish government’s announcement of a 3% increase in tuition fees. Students who meet the criteria will be eligible for a bursary of £1,000. The Trust reserves the right to refuse or withdraw these bursaries at any time.

The decision does not affect existing students currently in receipt of a bursary for academic year 2018-19 and is due to come into effect from the academic year 2019-20. It is expected that the Trust will honour its commitment to the students and maintain the funding in 2019-20.

Clark (MacCed) Dairy Fund

The Clark (MacCed) Dairy Fund is a charitable foundation which was established in 1959 by a Scottish manufacturer named after his son. He was a local entrepreneur and prominent citizen of MacCed.

The fund is operated by the dairy and consists of a £100,000 endowment. The current balance is £100,000. The fund is available to any student entering the field of dairy science, with preference given to a student from MacCed.

Evelin Entrepreneurship Scholarship 2018

The Evelin Entrepreneurship Scholarship 2018 is a £1,000 grant to an undergraduate or postgraduate student in the UK. The award is designed to help students undertake research and assist with their entrepreneurial journey.

Fodrow Trust Bursary Scheme

The Fodrow Trust was established by Chesterman from the City of Edinburgh in 1735 with the original sum of £10. It is used to support the children of Chesterman or other members of the Chesterman family. The Trust administers this fund in accordance with the terms of the trust.

Rustpock Scholarship

The Rustpock Scholarship is a £5,000 grant to undergraduate or postgraduate students who have secured employment in a field related to environmental science. The scholarship is intended to assist with the cost of tuition fees and living expenses.

All students are eligible to apply for the scholarship. Applications will be assessed based on academic achievement, demonstrated interest in environmental science, and a clear statement of how the scholarship will be used.

The application deadline is October 31st, 2017.
