The School of Life Sciences is one of three Schools in the College of Medical, Veterinary and Life Sciences at the University of Glasgow. We are the focus for undergraduate and some taught postgraduate education in Life Sciences.

Our Athena SWAN SAT was formed in early 2016 and provides an excellent and unforeseen opportunity for cross-School interactions. We are currently working towards a Bronze Award.

Themes within our Action Plan are:

- Disseminating the Athena SWAN charter to the student body
- Improving work-life balance
- Supporting career breaks and flexible working
- Counteracting bullying and harassment
- Organising social and wellbeing events
- Promoting opportunities for staff and student development
- Increasing gender parity in decision-making
- Enhancing promotion and performance processes
