1. INTRODUCTION

1.1. WELCOME FROM YOUR COURSE LEAD

I want to welcome you to the study of Psychology at the University of Glasgow. Our team know you have made the right choice in studying here and I hope that you benefit from the course both intellectually and in terms of personal development. The following document tells you what our expectations are of you as a student and states the obligations that the School has towards you. The course is designed to develop not only your knowledge and understanding of psychological theory and research but also your psychological literacy skills. Psychological literacy refers to the idea that having a strong understanding of human behaviour helps us to understand ourselves and others better. This knowledge is not just academic but can be applied to real world settings to make us more effective members of communities and workplaces. This course will introduce you to the basic concepts of modern Psychology and will reflect the range of interests held by modern researchers. As part of this you will begin to develop knowledge and skills that are transferable out with Psychology, these include understanding research methods and how we can learn new things; literacy skills in how to summarise information and construct coherent arguments; critical thinking skills and evaluation; numeracy skills in how to compute statistics and present and interpret numerical information in coherent ways. These skills are essential not just to those students wishing to pursue a career in Psychology but can complement other subjects as well as other areas of our lives. This course is accessible to anyone with a good secondary education. There are no intellectual pre-requisites as such although some knowledge of biology and of statistics can be helpful. The document deals with all the things you need to know in order to carry out your role as a student. It deals with the aims and objectives of the course, your obligations in terms of Lectures, Tutorials, Supported and Independent learning, Health and Safety Policy, and what to do if you have problems. Many of the things you need to remember as you proceed with the course are spelt out in this document so it is very important to keep a copy for reference. Our course administrator is Amanda Lynch. I will be contactable with more specific issues. It is as up-to-date as possible and was last revised on 01/09/2017.

We look forward to working with you over the coming academic year!
Dr Heather Cleland Woods
Level 1 Course Lead

1.2. MAIN CONTACTS

Heather Cleland Woods
Course Lead
Tel: 0141 330 6276
heather.woods@glasgow.ac.uk

Amanda Lynch
Course Administrator
Tel: 0141 330 3986
Amanda.Lynch@glasgow.ac.uk

This Course Documentation sets out the structure of your course and commitments. It provides an overview of what is ahead, however some details may be added later or modified as circumstances change. Any course changes will NOT be updated in this document during the academic year. If any changes occur they will be communicated to students via MyCampus, email from the course organiser and on the psychology Moodle sites.
1.3. CAVEAT

When considering information, in general the following order of priority should be applied:

1. Formal announcements in class and emails to the class are likely to supersede other printed documents.
2. The web-based information will be kept as up-to-date as possible and will generally be more accurate than printed handouts – but please check the date in the Footer Section on documents to clarify this.
3. Any printed material is only up to date at the time of preparation and the date of this will be shown in the Footer section.
4. Past exam papers are obviously only a rough guide to future exams, and are superseded by any differences of syllabus or exam format by both this handbook and any course handouts and announcements.

1.4. ENTRY INTO THE COURSE AND PRE-REQUISITES

Entry to the course is through admission to the University for an Undergraduate Degree. There are no qualifying courses. Entry to the course is guaranteed to new University entrants up to a class limit of 600, with priority given to students who have put the UCAS Psychology code on their UCAS form as part of their application to Glasgow University.

1.5. WHAT THE COURSE QUALIFIES YOU FOR

Psychology Level 1A/1B is the first year of a four-year Honours degree in Arts, Science and Social Science which leads to the Graduate Basis for Chartered Membership (GBC) with the British Psychological Society (BPS). Attaining GBC status is essential for those who wish to pursue a career in Psychology.

The course consists of two modules:

- 1A: Biological and Experimental
- 1B: Social, Developmental, Health and Individual Differences

Students normally complete both modules 1A and 1B. However, it is possible to leave after successful completion of module 1A with twenty credits and whatever grade award has been achieved.

Many students will intend to progress from Psychology 1A/1B to Psychology 2A/2B and thus to a single or joint honours degree in Psychology. Others will be happy to complete Psychology 1A or Psychology 1A/1B as part of another degree structure. If you intend to advance to one of the honours programmes you should be aware of the progress rules which are laid out in section 14.

1.6. GDPR

The General Data Protection Regulation (GDPR) came into effect in May 2018. Along with the new Data Protection Act 2018, this marks a significant update to data protection laws and changes in how the University stores personal data. For information on what this means for students, please visit the Data Protection and Freedom of Information Office section of the University website: [https://www.gla.ac.uk/myglasgow/dpooffice/guidanceforstudents/](https://www.gla.ac.uk/myglasgow/dpooffice/guidanceforstudents/). For details of the University’s Student Privacy Notice please see: [https://www.gla.ac.uk/media/media_590481_en.pdf](https://www.gla.ac.uk/media/media_590481_en.pdf)
2. PSYCHOLOGY AIMS & OBJECTIVES

Psychology 1A/1B provides an introduction and overview of the main areas and concepts of Psychology. Lectures will introduce students to the key theories and relevant experiments. Coursework will give students the opportunity to research independently and evaluate relevant material beyond the lectures, and develop skills in communicating scientific material.

Practical Lab classes will introduce students to key experiments in the field, develop research skills, develop communication and critical thinking skills as well as students' oral presentation skills. Web-based resources will allow flexible access to support materials.

### 3.3. COURSE TEXT

All Lecture courses unless otherwise stated are supported by this text which is available from the John Smith bookshop in the Fraser Building.
4. PSYCHOLOGY 1A - BIOLOGICAL AND EXPERIMENTAL

4.1. AIMS
The aim of this course is to introduce students to core material in the area of biological, cognitive and experimental Psychology broadly defined, including exposure to the conduct of experimentation, data gathering and analysis. The course also teaches practical skills involved with experiments employing human participants, focussing on research design, data management, and professional standards in the communication of research findings. Communication skills are also encouraged by means of regular practical labs with group work and group discussions/presentations.

Although the lectures, together with Psychology 1B, form part of a programme which leads to an Honours degree with the Graduate Basis for Chartership with the BPS, the course is also intended for students who wish to exit after Psychology 1A. It, therefore, can serve as an introduction to the field for students taking the course as part of the general degree or as an outside subject in another honours programme.

4.2. OBJECTIVES
By the end of this course students will be able to:

- Describe, explain, and evaluate a broad range of theories and research findings in Psychology which will introduce students to Research Methods; Biological Psychology; Perception and Visual Cognition; Human Memory; and, Language.
- Discuss and evaluate the methodological bases for psychological research.
- Explain the nature of experimentation in Psychology.
- Practice and understand experimental and data management methods in an applied and practical context.
- Report empirical work adopting professional standards.
- Discuss and critically evaluate psychological ideas in a written format.
- Express and explain psychological ideas orally in front of an audience.
- Summarise and critically evaluate psychological theories and research findings in an unseen examination.

5. PSYCHOLOGY 1B - SOCIAL, DEVELOPMENTAL, HEALTH & INDIVIDUAL DIFFERENCES

5.1. AIMS
The aim of this course is to introduce students to core material in the area of Social Psychology; Health Psychology; Human Development; Individual Differences; and Mental Health and Wellbeing broadly defined, including exposure to the conduct of experimentation, data gathering and management. The course also teaches practical skills involved with experiments employing human participants, focussing on research design, data management, and professional standards in the communication of research findings. Communication skills are also encouraged by means of fortnightly practical classes with group discussions/presentations.

Although the Lectures form part of a programme which eventually leads to an Honours degree with the Graduate Basis of Registration for the BPS, together with Psychology 1A, it would also serve as an introduction to the field for students taking the course as part of the general degree or as an outside subject in another honours programme.
5.2. OBJECTIVES
By the end of this course students will be able to:

- Describe, explain, and evaluate a broad range of theories and research findings in Psychology which will introduce students to Social Psychology; Health Psychology; Human Development; Individual Differences; and Mental Health and Wellbeing.
- Discuss and evaluate the methodological bases for psychological research.
- Explain the nature of experimentation in Psychology.
- Practice and understand experimental design and data management in an applied and practical context.
- Report empirical work adopting professional standards.
- Discuss and critically evaluate psychological ideas in a written format.
- Express and explain psychological ideas orally in front of an audience.
- Summarise and critically evaluate psychological theories and research findings in an unseen examination.

6. RESEARCH SKILLS AND PRACTICAL LABORATORIES

The School of Psychology aims to provide our students with a rigorous training in psychological research methods. This training begins at level 1 and your research skills are developed throughout your studies. This element of the course will teach you the importance of research methods and data management in Psychology. This is achieved by:

- A series of 5 Lectures on experimental design and statistics aimed to develop your theoretical understanding of research issues.
- You will complete five practical Lab classes, taught in small groups, which are designed to introduce you to different experimental designs, data, research methods, skills in the professional presentation of research findings and communication of results. These classes place a heavy emphasis on skills acquisition (e.g. how to visualise data) and critical appreciation of research issues (developed through peer interaction, supported learning and independent learning).
- You will participate in ongoing school research, an essential part of your research methods training. This allows you to observe real research in practice as well as being able to fully appreciate the participant’s experience in the research process. You will discuss your experience in small-group activities.

The Psychology Laboratory course is held in Lab 517 and 518, on Level 5 of the Boyd Orr Building, please refer to the Feedback Calendar at the end of this document for dates. There are 5 practical labs per semester. Each practical Lab runs for a period of two weeks and you attend the class you enrolled in via MyCampus during this period. The laboratory will be open Monday through Thursday from 10am to 4.45pm and Friday 10am to 2.45pm. If there are any changes to the laboratory opening times you will be notified. All materials for the practical labs will be made available on the Level 1 Psychology Moodle site. There is a summary at the end of this document detailing when practical labs run and course work completion dates.

The School of Psychology regards being an experiment subject as a valuable part of training for students. This is where you can gain first-hand experience of a research study and discuss research with the researcher. In addition, many of our studies will pay you for your contribution (at the rate of £6 per hour). To sign up for experiments you need to become a member of the School of Psychology’s Participant Pool -https://intranet.psy.gla.ac.uk/login.php

Please contact the course tutor, Dr Woods in case of any difficulties. Students with disabilities, such as visual impairment, will be treated as exceptional cases and should contact Dr Maria Gardani, School Disability Coordinator, maria.gardani@glasgow.ac.uk about this as soon as possible. Suitable arrangements will be made for all students to take part in the research environment of the school.

The practical Lab course is assessed in a number of ways:

- Formative feedback is provided by Lecturers and GTAs who will support you throughout the class activities
- Each practical is assessed via relevant tasks which you will complete either in class or as homework which will form your Lab portfolio.
• Each class will be structured around three main themes: data, critical thinking and the portfolio. These themes will enable you to identify the requirements of the task, the skill it is designed to develop and the nature of the feedback you will receive.
• Students will also complete a group project in each Semester with a short talk about your research in class. This will be assessed and contributes to your final grade.

Assessment criteria can be found on Moodle. Lab dates are listed in your MyCampus timetable. We have also prepared a number of resources supporting Psychological Literacy which are available on our Moodle pages.

7. COURSE WORK

The coursework that must be completed by students are:

7.1. ESSAYS

You are required to complete one Essay per module, as part of coursework requirements. The essay title will be published at the start of the semester. Essays should be a maximum of 1,500 words long (not including reference section) and completed essays should be uploaded via the correct link on the Psychology Moodle pages which will record the date and time of submission. Essays for marking should not be submitted by any other method, however, they must also be submitted through our plagiarism software; further details about this will be on the Moodle website.

Guidance will be given on essay writing in practical classes and on Moodle where assessment criteria will also be posted. Please also check email and Moodle forum posts for sessions on writing and communicating in science. Essay format is as follows: 12-point Times New Roman, 1.5 spacing with 1” margins.

7.2. LABS AND PORTFOLIO ACTIVITIES

You are required to complete all five labs and the associated assessments. Guidance on these assessments will be provided in labs, and support materials placed on the level 1 Psychology Moodle site where assessment criteria will also be posted. You are also required to obtain 4 participation credits per semester. As part of our community building we encourage you to take part in the research that is happening within the School of which you are now a contributing member. You can find details of the studies offering participation credits on the School’s website www.psy.gla.ac.uk by clicking ‘Help our Research’.

7.3. URKUND - SOFTWARE FOR DETECTING PLAGIARISM

The University uses plagiarism detection software called Urkund, as one of the tools in combatting plagiarism, but also for you to use in learning more about plagiarism. Students submit a draft of their coursework to Urkund which checks to see if it is copied from another source. The software then produces a report to tell the student if work has any “word for word” matches with sources on the web or in other publications.

We have prepared resources to help you interpret your report and advice on how to avoid plagiarism which is available on the Psychology Moodle and Library websites. In addition, there will be PAL sessions where you can turn up with your assessment and get advice on how to interpret it and avoid plagiarism.

Assessments may be submitted twice, the first as a draft submission which will provide you with feedback, and then as a final copy of your work. The final reports produced will be examined by the School for evidence of plagiarism. If the software indicates that there is strong evidence of plagiarism, the School will take action in line with the University guidelines. This can include being awarded a zero mark for the work and being reported to the Senate Office. It is therefore vitally important that you make sure that you use the resources that are available before you submit your assessment so that you avoid these penalties.

Instructions for how to submit your work to the plagiarism software will be made available by your Course Administrator when they share details of your assignments. Please follow the instructions carefully.
7.4.  WORD LIMITS FOR COURSEWORK

The word limit for coursework essays is a maximum of 1,500 words. Please note that this is an absolute maximum (there is NO +10% allowance), and so any text that goes over this word limit will not be read or marked (which will make your work read as though it is incomplete). You must add the word count on the title page of your work. The word limit does not include the reference section (which should be removed before submitting through the software) but includes all other text (i.e. everything apart from the reference section), the title and citations in the text.

7.5.  GROUP PRESENTATIONS

As part of the Practical Labs, students will complete a group presentation in each semester. This is a short talk given by the group which is researched and delivered in your Practical Lab class. Staff will provide additional information on this alongside guidance provided on Moodle, where assessment criteria will also be posted.

7.6.  FORMATIVE ASSESSMENT

Formative Assessment will be provided in small group teaching. You will be given the opportunity for your groups, which will be established in the practical classes, to submit a Formative Lab Report at the end of Psychology 1B and should be completed as a group; no individual reports will be accepted. Feedback will be given on these reports during staff office hours or a time arranged with a member of staff. Information on this will be shared via Moodle in Semester 2.

7.7.  DEADLINES

Coursework and other material completed during the academic year need to be submitted via Moodle by a deadline date. The School cannot function effectively if these deadlines are not met, as we cannot guarantee return of feedback and grades in time to enable you to use the feedback moving forward. The dates are detailed at the end of this document.

The University has compulsory regulations covering the late submission of work as follows:

- work submitted not more than five working days after the deadline will be assessed in the usual way (if Good Cause is established)
- the primary grade and secondary band so determined will then be reduced by two secondary bands for each working day (or part of a working day) the work was submitted late.
- work submitted more than five working days after the deadline will be awarded Grade H (zero).

Penalties for late submission of coursework will not be imposed if Good Cause is established for the late submission in terms of the definitions and procedures set out in the University Calendar.

Further details on penalties for late submission of coursework can be found at: http://www.gla.ac.uk/media/media_124293_en.pdf

7.8.  LATE COURSE WORK OR MISSED EXAM DUE TO GOOD CAUSE

It is your responsibility to bring any factors that may have affected your academic performance to the attention of the University and you must do this as soon as possible. The Code of Assessment which is published in Section 16 of the Fees and General Information section of the University Calendar covers incomplete assessment and Good Cause (paragraphs 16.45 – 16.53). Click here for the Senate Calendar

Below is a summary of the key points. If you are unclear about anything please contact your Class Lead – Dr Heather Woods (heather.woods@glasgow.ac.uk) or the School Exams Officer – Professor Niamh Stack (niamh.stack@glasgow.ac.uk).

How to notify the School if work is submitted late:
• All coursework submitted late will be penalised in line with University regulations unless Good Cause is established. See below for a definition of Good Cause.
• To submit a Good Cause form, go to the Student Centre on MyCampus and select My Good Cause. You should also upload any supporting evidence.
• Good Cause forms must be completed within a week of the assessment date.
• All Good Cause applications will be considered by, the course convener, this is the Year Lead, Dr Heather Cleland Woods, however, all final decisions will be made by the Board of Examiners.
• The outcome of the application will be determined at the discretion of the course convener who must be satisfied that the candidate submitting the application has been prevented by circumstances beyond his or her control from submitting the relevant work on time.
• Exemption from a late penalty will be commensurate with the duration of the circumstances causing the late submission and will be subject to a limit of three working days.
• Where the application for exemption from penalties is not submitted until after the deadline for submission of the work itself, relief from a late penalty will normally be granted only where the circumstances preventing the candidate from submitting work on time have also prevented application for a deferral of the deadline for submission.
• Deadlines for the submission of coursework which are to be formally assessed are published in this course documentation, and work which is submitted later than the deadline will be subject to penalty as set out above.
• Feedback will be provided for all coursework submitted late.
• In the case of missed examinations, a grade of CW (Credit Withheld) will be returned unless Good Cause is established for why the assessment was missed. If Good Cause is established then the student will be returned as MV. The student will then be required to sit the examination in the August diet if they wish to progress to the next year of study. If the student has initially been returned as CW, their performance in the August diet will be capped at D3, if they have been returned as MV their grade will be uncapped.

‘Good Cause’ means illness or other adverse personal circumstances affecting you and resulting in you, missing an examination, failing to submit coursework on time, or clearly prejudicing your performance in the assessment. [Chronic illness is not covered unless there has been a short term worsening of the condition which specifically affects an assessment]. If it is accepted that your assessment was affected by good cause, the work in question will be set aside and you will (as far as is practicable) be given another opportunity to take the assessment with the affected attempt discounted. Please note that Boards of Examiners are not permitted to award marks based on undemonstrated performance and therefore your grade(s) will not be increased because your performance was impaired by medical or other personal circumstances.

Time Limit You must notify the University no later than one week (i.e. within 7 days) after the date of an examination or the due date for submission of the assessment affected. The information you provide will be treated confidentially. Please do not shy away from divulging important information. It will be treated sensitively. Without your information, the Board of Examiners will not be able to take the matter into account. Furthermore, you will not be able to appeal against your assessment result on the grounds of adverse medical or personal circumstances unless you can provide a good reason why this information could not be presented in time.

7.9. FEEDBACK

We provide you with feedback on coursework and exams. You should use feedback to reflect on how your knowledge and skills are progressing and how to approach and improve your future work. This will also be helped by the portfolio of work which you will build over 1A and 1B.

The timing of when you receive feedback varies depending on the assessment. The turnaround time for receiving feedback for essays may be later than online assessments because the feedback you will receive will be more detailed and subsequently, it takes us longer to assess these pieces of work. This additional time is also required to ensure that all the necessary quality assurance procedures have been completed which we have implemented to guarantee the high quality and consistency of our marking procedures. However, we work hard to return feedback to you as quickly as possible. At the end of this document, there is a summary of when you must complete all coursework and when you can expect grades and feedback to be returned to you.
Feedback is designed to help you reflect on your work rather than to give you an impression of what the "right answer" is. Markers will comment on what they think has gone well and what can be improved. You should use these comments to reflect on your work.

When you are given feedback, for example on essays, you should read both the Marker’s comments and your original work. This will help you understand the comments in context, and help you identify what you can do to improve future work. Coursework is designed to build upon your previous assignments and help to develop your critical thinking, knowledge and skills.

If you are unclear and wish additional feedback on coursework (please note this is not for exam performance) then a meeting can be arranged with the Marker. Before this will be arranged, you will have to read both the Markers’ comments, your piece of work, and clearly specify what you want feedback on. It is important to note that grades will not be changed and that these meetings are not to discuss grades awarded but specifically to clarify comments made and provide additional educational guidance.

Over the year, we will provide you with a lot of feedback but it might not always be obvious that what we are providing is actually feedback. To help identify all the sources of feedback available to you we have summarised this below:

- **Summative Grades** – this is the grade given to your work such as an A, B, or C. We use the University grading scale summarised in section 10.1 below. Each grade category reflects the attainment level of the intended learning outcomes that you have achieved. Please read through these so that you fully understand what these categories refer to and what you need to achieve them.

- **Coursework Essays** – these pieces of coursework require you to research and summarise psychological ideas and arguments and present these in a well-written, logical and coherent document. We’ll spend some time in practical labs discussing what feedback is informative and how to use it. It is important you engage with feedback to help you reflect on your strengths and areas for development in preparing for the next assignment.

- **Practical Class Assessments** – The practical classes teach you a range of research and psychological literacy skills that are highly transferable to other subjects and careers. You will receive feedback from staff members working in these classes. They will check your work but it is very effective in developing your understanding if you ask them questions on any point that you do not understand. Discussion with staff members is a key part of the Formative feedback process. Feedback for tasks you complete, as part of your portfolio and assessment, is similar to the essays except this will be broken down into the relevant theme it addresses. For example, if you produce a figure from data you gathered, the feedback you receive will be directly relevant to that task. Students will be provided with guidance on how to structure and communicate research so feedback will focus on how well this has been achieved. Again, interpreting and communicating research is a key skill of psychological literacy and one you will develop over the four year programme so it is important to read and act on the feedback as you progress through the course.

- **Group Presentations** – group presentations require students to work collaboratively on researching and delivering a talk on a reflection of what they would tell their fresher self. Staff will provide support and Formative feedback through discussion in class and in written Summative feedback at the end of the presentation.

- **Exams** – feedback will be provided by giving students a breakdown of grades (for essay and MCQ elements); Markers will provide written generic feedback based on student performance that will highlight key issues to consider. This feedback will be posted after course grades have been posted on MyCampus.

- **Peer Discussion** – peer discussion is also a form of feedback. Much of the small group exercises require you to work closely with other students, listening to other learners’ views and comments is also valuable feedback.

- **Staff Interaction** – you should view all interactions with staff members as feedback. This may be face-to-face after lectures, in practical labs, but feedback may also be provided via email or on Moodle discussion forums.
7.10. DOCUMENTING YOUR COURSEWORK

7.10.1. Title Page for Submission of Coursework

All coursework should be submitted with a proper title page statement attached. This will include your ID numbers, date, assessment title and the number of words. These will be made available for download on the Psychology Moodle page nearer to the submission deadlines. Please note that work without the proper title page will not be accepted.

7.10.2. Plagiarism Page for Submission of Coursework

The University of Glasgow takes a very strong line against plagiarism. The University’s degrees and other academic awards are given in recognition of a student’s personal achievement. You will be asked to accept the University’s Rules on Plagiarism when you submit your assignment through the plagiarism software.

Plagiarism is defined as the submission or presentation of work, in any form, which is not one’s own, without acknowledgement of the sources. Special cases of plagiarism can also arise from one student copying another student’s work or from inappropriate collaboration.

For full details of the university’s rules on plagiarism please refer to: https://www.gla.ac.uk/myglasgow/leads/students/plagiarism/.

This is a reminder of the University's policy on plagiarism. You cannot receive credit for work that is not your own, so it is not permitted to submit unacknowledged or incorrectly referenced material. It is also not permitted to submit material taken from another person’s work, or from work, you have submitted yourself at another time.

A range of websites now offer ‘custom writing services' which they claim do not constitute cheating and promise to be plagiarism-free. Some of these providers have been advertising their services around the University campus. If you ask someone else to write your work for you, it is cheating, regardless of the reassurances on these websites. You are not allowed to submit work that has originated from one of these sites. All work you submit must be your own.

If you submit plagiarised work or work written for you by another person or organisation, you are committing a serious breach of the Student Code of Conduct and will be subject to a conduct penalty. Such a penalty could lead to you being unable to complete your degree or even permanent expulsion from the University. Please ask yourself if it is worth the risk.

8. EXAMINATIONS

At the end of each module, 1A and 1B, there is a degree examination. This examination contributes 50% towards your overall assessment for the module. In the degree examination for Psychology 1A and Psychology 1B, you will be set 80 multiple choice questions (MCQ) component and a choice of essay questions, and you will be required to complete one of them. Both components contribute equally to the degree examination grade (i.e. 50% each in terms of the degree exam). The degree exam will examine the curriculum for the Semester in which the module took place, i.e. module 1A: Semester 1 and module 1B: Semester 2. Essay-type questions and multiple choice questions will be targeted on the main learning objectives as indicated in this Course Documentation and any subsequent amendments. For information regarding failure to attend the exam, please refer to the University’s absence policy for further details www.gla.ac.uk/media/media_129312_en.pdf

8.1. DICTIONARY WAIVER FORM

You are entitled to use a language dictionary in your examination if English is not your first language. However, there are a number of important points to note with regard to student conduct. You are not permitted to bring notes into an examination with you; this includes ANY notes or annotations inside a dictionary that is in your possession. If you are found to have notes or annotations in a dictionary (or elsewhere) in the examination room, regardless of whether or not they are relevant, used or consulted, you will be reported to the Senate Office under the University’s Code of Student Conduct. Penalties levied by the Assessors for Student Conduct for such offences typically include a mark of
zero for the examination with no opportunity to resit. This could have the consequence that you will not qualify for your degree.

The procedure to use a language dictionary is as follows:

You will need to complete the dictionary waiver form (found on Moodle) to indicate that you are intending to use a dictionary in the exam. On the form, you must list all the exams/dates/times when you intend to use the dictionary. On the form, you will be asked to clearly indicate that you understand that only a standard language dictionary can be used. On the form, you will also confirm that you clearly understand that the dictionary must be free of any annotations and that you are clear as to the consequences of any being found.

Your completed form must be completed and submitted to the School of Psychology Office by the date indicated nearer the time of examinations. Once you have submitted the form you can then take your dictionary directly to the exam venue. At the start of each exam, the member of School staff attending will have a list of approved dictionaries, only those for which we have dictionary form will be permitted for use.

8.2. ACCESS TO EXAM SCRIPTS

A student may view their exam script up to two weeks after the exam marks have been published. You should email the course administrator, Amanda Lynch (Amanda.Lynch@glasgow.ac.uk) stating your name, ID number and the scripts you want to see. Scripts will be available to view within 2 working days. We will email you with a time to come in when you will be given 30 minutes to look at the scripts. You will not be allowed access to your scripts out with these times. You must bring your University student card with you for identification purposes.

Typically, you will be allowed to read through your script under supervision, which is to prevent the possibility of tampering with the script. Please note that it is not possible to scan scripts and send them to you, nor can you photograph them. There will be no individual verbal feedback from any member of staff on specific exam scripts however written generic exam feedback will be provided to all students on all exams to help them reflect on their performance and prepare for future exams. For your information, no academic Marker will have written any comments or marks on the scripts. Students for whom the paper is a resit are entitled to individual feedback. This can be arranged by your individual Course Lead.

9. OVERALL ASSESSMENT

The overall assessment for each module is derived from 3 grades: (i) a single grade for the degree exam, (ii) a single grade for the Laboratory Portfolio and (iii) a single grade for the class essay.

The weightings of these 3 grades in making up the single Course Grade are shown in the following figure.

**MODULE 1A**

<table>
<thead>
<tr>
<th>Component</th>
<th>Weighting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Degree exam</td>
<td>50%</td>
</tr>
<tr>
<td>Coursework</td>
<td>50%</td>

<tr>
<td>Lab 3 activity</td>
<td>6%</td>
</tr>
<tr>
<td>Group presentation</td>
<td>7%</td>
</tr>
<tr>
<td>3 x MCQs</td>
<td>6%</td>
</tr>
</tbody>
</table>

100% =
Please do not underestimate the importance of the components that appear to make only a minimal contribution to the Course Grade.

Please note: We have an extensive moderation procedure in coursework and exams to ensure consistency across Markers and assignments. We take these procedures extremely seriously so that we can ensure that marking is fair, reliable, and valid. All Markers have a sample of their work moderated (i.e. second marked) by another member of staff to ensure that marking standards conform across the teaching team. In addition, a sample of all coursework and exam papers is given to our External Examiner who evaluates the marking standards and consistency on the programme.

9.1. MERIT LIST

Students who achieve an overall ‘A’ grade in either module will be placed on our Academic Merit List and will be awarded a Certificate for Academic Excellence.

9.2. COURSEWORK REQUIREMENTS

To be recognised as someone who has duly performed the work of the course and is, therefore, eligible to sit the Degree Examination you need to satisfy the following requirements for each of Modules 1A and 1B:

1. Submit the Lab portfolio assessments and meet all deadlines for submission.
2. Complete all labs.
3. Submit one essay per semester, meeting deadline for submission.
4. Attend all practical Lab classes & complete one group presentation per semester.

All students must complete an essay in each module and the practical class based portfolio assessments. If you think illness or other serious circumstances will prevent you completing any aspect of the course then you should immediately contact your adviser of studies and the Course Lead. You will then be advised on what course of action you should take.

Requirements for the award of a degree, diploma or certificate include the attainment of a prescribed number of credits. The award of credit is a different process from the award of a grade for a course. No matter what grade is awarded for a course a candidate will be awarded credit for it which counts towards fulfilment of the credit requirements for an award. The basic requirement which must be fulfilled before a student is awarded credit for a course is that he or she has completed at least 75% of the assessment for the course.

For example, on this course, 50% of the assessment is achieved by way of coursework and 50% in the form of a final examination. If a student took the examination but failed to submit several components of coursework amounting to more than 25% (e.g. in 1B the essay - 20%, and a Lab portfolio assessment- 7% each), he or she would not meet this requirement. In such situations, students will be returned as Credit Refused and fail to receive the appropriate credits for the module. Students who have failed to meet the 75% threshold due to missed coursework must contact the Course Lead. Please note that some practical Lab assessments may not be possible to reassess. In exceptional
circumstances, the Course Lead may arrange alternative assessments in lieu of practical classes; however, this will not apply in situations where the student has missed a number of pieces of work.

These rules only apply to cases where failure to submit coursework or attempt other assessments is not explained by good cause. Where Good Cause is shown for failing to complete assessments the Good Cause rules explained in Chapter 5 of the Code of Assessment will apply.

9.3. TIMING

Degree examinations are normally held in December for Module 1A and May for Module 1B. Resits are normally held in August. All degree examination times are announced by Registry.

9.4. MCQ ANSWER SHEETS

The multiple choice questions set in examinations are scored by a machine which reads pen marks you make on a special Answer Sheet to indicate which of the alternatives you have chosen. An example of an MCQ sheet completed in the appropriate way will be available during tutorials several weeks before the first exam and it will save you valuable time on the day of the exam if you study it carefully in advance.

9.5. EXAMS ONLY CANDIDATES

Students who are sitting the degree exam as exam only candidates (i.e. students from a previous year with permission) should note that the degree exam is based on the syllabus for the current Semester, students should ensure they have a copy of the current course handbook which has details of the syllabus as well as the format of the degree exam. The course information can also be found on the school’s website at: https://www.gla.ac.uk/schools/psychology/teaching/currentstudentscourseinformation/

9.6. PUBLICATION OF DEGREE EXAMINATION RESULTS

Students’ examination results will be published on their MyCampus record. The School is not allowed to release results directly or by telephone.

10. HOW YOUR WORK WILL BE ASSESSED

The exam rationale is to test students’ basic knowledge and understanding of psychological concepts. The ability to demonstrate this is also assessed through literature review and Lab portfolio assessments. Ability to express concepts verbally will be tested by the student’s performance in practical Lab classes and in the group presentations. Practical research skills are taught via practical Lab class based activities and supported by a series of lectures. Research skills are developed via labs and assessed via the Lab portfolio assessments.

Attendance at practical Lab classes and Lectures is an essential part of the learning experience and of your student contract. Attendance will, therefore, be monitored and a register taken at labs.

10.1. GRADING SCALE

A common grading scale is used for assessing each piece of work in Psychology 1A/1B whether, for example, the work is a literature review essay, Lab portfolio assessments, an essay answer in an examination, or a presentation. The grading scale we use is common throughout the university.
### ALL COURSES

<table>
<thead>

<td>CREDIT REFUSED</td>
<td></td>
<td></td>
<td>Failure to comply, in the absence of good cause, with the published requirements of the course or programme, and/or a serious breach of regulations.</td>
</tr>
</tbody>
</table>

*The Secondary Band indicates the degree to which the work possesses the quality of the corresponding descriptor.

#RELEVANT UNIVERSITY RULES

### 11.1 CREDIT AND CREDIT TRANSFERS

Please refer to the relevant sections of the University Calendar.

### 11.2 RE-ASSESSMENT IN A MODULE

If students fail to meet the threshold grade D at the end of each module, they will be given the opportunity to improve their grade by resitting the module examination. If students fail to meet the minimum 75% threshold of completed coursework to earn course credit the Course Lead will advise on whether the student can complete outstanding coursework. In some situations, such as practical labs, reassessment may not be possible, and if appropriate, the course Lead may arrange an alternative assessment opportunity. Please refer to the relevant sections of the University Calendar. [www.gla.ac.uk/myglasgow/senateoffice/policies/assessment/codeofassessment](http://www.gla.ac.uk/myglasgow/senateoffice/policies/assessment/codeofassessment)
11.3. COMPLAINTS PROCEDURE

The University and School are committed to providing an excellent educational experience for our students. The University has a duty to maintain and enhance the quality of its provision and to provide an effective system for handling complaints. The University has a Complaints Procedure which allows complainants to raise matters of concern without fear of disadvantage and in the knowledge that privacy and confidentiality will be respected. Further details about the University Complaints Procedure can be found on the Senate Office website, [http://www.gla.ac.uk/services/senateoffice/studentcodes/students/complaints](http://www.gla.ac.uk/services/senateoffice/studentcodes/students/complaints).

11.4. AN IMPORTANT NOTE ON PUBLISHED COURSE INFORMATION

Every effort has been made to ensure the accuracy of the information in this handbook at the time of going to press. However, the content of courses and syllabuses is under regular review and may change from time to time with some courses being cancelled, modified or replaced. In addition, other factors such as industrial action or the departure of a member of staff may result in it not being possible to offer a course. Courses offered may also be subject to a minimum number of students in any one year. The School, therefore, reserves the right without notice to vary the content of its courses & syllabuses and the right to cancel or modify the courses, syllabuses and facilities described in this handbook.

In general, the following order of priority should be applied:

1. This handbook is up to date as of the start of Semester 1 only and will not be updated throughout the year.
2. Any changes will be communicated to students via MyCampus, Moodle, class emails and electronic notices, Lecture announcements, and handouts.
3. Announcements and handouts supersede other documents such as this handbook.
4. Past exam, papers are obviously only a rough guide to future exams and are superseded by any differences of syllabus or exam format by both this handbook and any course handouts and announcements.
5. Lecturers will provide detailed Lecture summaries for their courses and post on Moodle.

11.5. SOCIAL MEDIA ETIQUETTE

Social networks provide an excellent resource for sharing ideas/concerns, accessing information and building friendships but it is important to also be aware of the potential pitfalls of this resource. Note the excellent advice provided by the SRC on how to avoid some of the potential pitfalls of Social Networking, this can be accessed at the following link [https://www.glasgowstudent.net/advice/health-and-safety/social-networking](https://www.glasgowstudent.net/advice/health-and-safety/social-networking).

We want to ensure that you are aware of this advice so that you do not intentionally or unintentionally infringe the University’s Student Code of Conduct by making comments that are inappropriate or potentially intimidating or threatening to others. As highlighted within this advice from the SRC it is important to remember that comments you make on these social networks are more permanent and less private than you may think. Anyone can for example at any time take a screenshot of comments you make on Social Media and forward these at any time to people beyond the Social Media group members such as other students, university staff or a future employer. So although you may write something without thinking and remove it later – it may have already had a negative impact on another individual and a record of it may already exist so it is very important to give due consideration to your activities in these contexts. The SRC Student Advice centre is also happy to talk to anyone who has concerns in relation to this issue [http://www.glasgowstudent.net/advice](http://www.glasgowstudent.net/advice).

The School and the University are keen to ensure that a safe learning environment is provided to all students free from any intimidating or bullying behaviour subsequently action will be taken against students alleged to have breached this Code, further information on the Student Code of Conduct is available here: [http://www.gla.ac.uk/services/senateoffice/studentcodes/students/studentconduct](http://www.gla.ac.uk/services/senateoffice/studentcodes/students/studentconduct).

A suspected breach of the Code can be reported by any student or member of staff in the University and associated bodies, or a member of the public. For example, instances of alleged bullying can be reported by any individual who has
witnessed and has evidence of this behaviour not just the alleged subject of this intimidating behaviour. Any evidence of such behaviours, such as the example of Social Media screenshots above, will be passed to the Senate Assessor for Conduct who will decide whether it merits consideration under the Code of Student Conduct and, where appropriate, what actions need to be taken against students who are deemed to have breached this Code.

We hope this information is useful to you in your use of social networks.

12. SUPPORT & COMMUNICATIONS

12.1. PASTORAL RESOURCES

There are a range of pastoral support and student guidance systems in place for students on programme:

12.1.1. Course Lead

As mentioned in the introduction, Level 1 Course Lead is Dr Heather Cleland Woods. She may be called upon to advise students as a group or individually on their performance, concerns or complaints about the programme. She will deal with queries from students and staff.

12.1.2. Course Lecturers

All Lecturers teaching the Level 1 Course have arranged to set aside at least one hour a week when they can be approached by Level 1 students who have enquiries about the course. These times are listed on the staff pages of the website www.gla.ac.uk/schools/psychology/staff and some will operate an appointments system. Any problems with obtaining a consultation should be immediately taken up with the Course Lead. Students are encouraged to approach lecturers with any concerns about issues relating to a particular course or to discuss progress. Lecturers can provide advice on assignments and appropriate feedback on work. As well as being posted online, consultation hours of teaching staff are also regularly posted on their office doors and on the screen in the entrance to the School. Staff also regularly support students through Moodle forums.

12.1.3. Effective Learning Adviser

The College of Science & Engineering employs an Effective Learning Adviser whose role is to assist students, particularly mature students and non-graduates, to maximise their potential. The Effective Learning Adviser runs regular study skills workshops and students may self-refer or be referred by the course organiser for one to one sessions. Contact Dr Jessica Bownes at jessica.bownes@glasgow.ac.uk. (See also: http://www.gla.ac.uk/myglasgow/leads/students/)

12.1.4. Student Disability Adviser

The University’s Disability Service helps applicants with a disability to assess the range of facilities available and provides advice on sources of support. The University has experience of supporting students with a range of disabilities including sight, hearing, mobility difficulties and a number of unseen disabilities including dyslexia. Support includes special teaching materials and equipment (including computers), flexible assessment and examination procedures and financial support. For further information, contact Disability Service, 65 Southpark Avenue, on 0141 330 5497 (disability@glasgow.ac.uk). If you have received exam support (e.g. extra time) on a previous course or at another institution, please notify the School as we will contact Disability Service to ensure that your exam support is arranged in good time for any exam you may take during your M.Sc.. The Disability Coordinator for Psychology is Dr Maria Gardani maria.gardani@glasgow.ac.uk. Information for students with a disability and special needs at University of Glasgow can be found on the web at: http://www.gla.ac.uk/services/disability/

12.1.5. Care at Psychology

The School also offers support for students who feel they cannot cope/are overwhelmed/are alone. This service provides a place to talk in confidence; advice on sources of help available; advice on how to deal with the Good Cause procedures; and help communicating with course tutors, other Schools and units. Please contact care@psy.gla.ac.uk. Alternatively, please visit us during our office hours: Dr Linda Moxey, 62 Hillhead Street (Room 417, Thursdays 2-4pm) and Dr Maria Gardani, 62 Hillhead Street (Room 413, Mondays 10am – noon).
12.2. ASSISTANCE IN THE PSYCHOLOGY COMPUTER LABS

The psychology labs are where a lot of our smaller group teaching happens for level 1 as well as other years. We also offer this space as much as possible around our teaching for students for independent or group study. We also hold homework sessions, as well as a number of other support sessions throughout the year. Timetables will be available on Moodle.

12.3. PAL (PEER ASSISTED LEARNING) SCHEME

Weekly PAL sessions will run from week 3 and it is highly recommended that you attend. This is an opportunity to attend a “no staff, just students” informal environment, where student facilitators at higher levels mentor you on topics such as essay and report writing, experimental design and statistics, and study skills. PAL is intended to enhance understanding of your core objectives, and complement Lecture and Lab content. Further information will be circulated to you via email at the start of the Semester.

12.4. ANNOUNCEMENTS

Oral announcements will be made at Lectures. For those unable to attend every Lecture the most reliable means of supplying information to the class is via e-mail or via Moodle forums. All other information can be found on the student Moodle site. Dr Woods will send out a Moodle announcement every Friday summarising the week’s activities, upcoming events and important information. Please ensure you check your university email daily and think about how best to organise your email so it is clear when new emails that require your attention arrive. For example, setting up folders for your different subjects may help clarify what information is coming in from each subject and prevent your inbox getting too overwhelmed!

12.5. MOODLE

The School has a Moodle site for supporting students with Notices, Lecture Notes, Practical Lab Class Information, aids to writing in Psychology and a Forum. The Psychology Level 1 Moodle page can be found at: http://moodle2.gla.ac.uk/course/view.php?id=10387.

12.6. E-MAIL

You should use the e-mail facilities to handle basic academic enquiries. We, the School, will use it to maintain contact with you. You should, therefore, log in regularly, i.e. at least once a week. Please check your University e-mail account regularly and ensure there is sufficient space to receive new mail. Do NOT use Hotmail to contact staff, as replies do not always reach Hotmail accounts.

12.7. PAST EXAM PAPERS

Examples of past papers can be found in the University Library. Please note only essay exam questions are published, not MCQ papers.

13. FURTHER INFORMATION

13.1. EXTERNAL EXAMINER

We have an External Examiner who is responsible for ensuring the examination process is conducted fairly and to an absolute standard. For session 2018-19, the level 1A and 1B external examiner is Dr Robert Nash, University of Aston.
13.2. APPEALS PROCEDURE

The University has a standard appeals procedure that is set out in detail on the Senate Office web page: www.gla.ac.uk/myglasgow/senateoffice/policies/calendar/calendar2017-18/feesandgeneral/assessmentandacademicappeals/reg26

In this document, it makes it clear that appeals will not be entertained against marks or decisions of examiners, or other matters of academic judgement. Proper grounds for appeal, which this document makes clear, are medical/personal, or procedural.

The document also states that an appeal against an assessment should be made to the appropriate Appeals Committee within 10 working days of the posting of the mark. Students might find it useful to approach the Director of Teaching or the Course Lead for informal advice.

13.3. ATTENDANCE

The School has been recording attendance at labs for some time.

Attendance at Lectures and labs strongly correlates with overall performance on the course so you should make an effort to attend all sessions. Absences should be covered by the appropriate documentation. Please see section on Illness, Absence and Personal Problems for guidance.

13.4. PROBLEMS, GUIDANCE, ETC...

The School’s hope is that you will enjoy the course of study offered and pass the examinations set. However, students can encounter a range of difficulties during a course. Some may not be very serious, e.g. feeling that the course is not quite what you expected: in that case, you should say so in your response to the course evaluation questionnaire. Some problems may be more serious: illness, family or social problems, difficulty in understanding the material, or just feeling anonymous in a large impersonal institution. In such cases, you may understandably feel a need for a more individual form of help or assistance, and although the class is large, there are many ways in which you can make contact with members of staff. As noted above, the Lecturers are available for consultation at appointed hours that are displayed on staff pages www.gla.ac.uk/schools/psychology/staff. The staff in your Lab can also point you towards appropriate help. The course lead is also available either by email or in her office.

13.5. ILLNESS, ABSENCE AND PERSONAL PROBLEMS

Students must complete a MyCampus absence report for any significant absence from the University. Supporting documentary evidence will be required and should be scanned electronically and linked to the MyCampus absence report. For detailed information about the Student Absence Policy and how to submit medical evidence via MyCampus please see www.gla.ac.uk/media/media_129312_en.pdf.

13.6. CONSIDERATION OF MEDICAL AND OTHER RELEVANT EVIDENCE

Please refer to the Code of Practice on Incomplete Assessment and Good Cause which can be found in the University Calendar, under General Information for Students.

13.7. QUALITY ASSURANCE AND ENHANCEMENT OF THE COURSE

There are two complementary formal mechanisms involving students for checking and improving the quality of courses: class representatives, and course evaluation surveys.
13.7.1. Class Representatives - Staff/Student Liaison

Student Representatives of the class (Class Reps) are elected at the beginning of the academic year. These representatives are invited to School Meetings and are encouraged to act generally as mediators between the class as a whole and the staff, as individuals or as a School – thus, through the representatives, class views can be given at these meetings and details of other school business relayed back. Meetings with the course organiser and course team are held as and when needed, at least one per semester. It is expected, however, that a more informal dialogue is continued with the course organiser and that most problems are dealt with at this level.

Students can either be nominated or nominate themselves. Arrangements for an election will be made early in the semester. Training and support for this role are supplied by the SRC (Student Representative Council).

13.7.2. Course Evaluation Surveys by Students

Students are asked to offer an evaluation of various aspects of the course (Lecture content and delivery, the laboratory programme, the assessment procedure) through the completion of questionnaires administered during the academic year. The results are scrutinised by the School’s Quality Assurance Officer and are the subject of discussion at meetings of the Staff-Student Committee, as well as at Staff meetings. Responses to them will be fed back to students in the class. Over the years, a number of improvements in the course have been prompted by student opinion expressed in this way.

Surveys will mostly be done online (as this seems most convenient for both students and staff), and automatic email reminders sent. It is a requirement for all students to fill them in. This is important to give confidence to students, teaching staff, and various higher layers of university quality assurance that we are neither ignoring issues which many students have shown concern about, nor making changes that affect all students based on what only one or two students have expressed an opinion about.

The main times to expect surveys are at the end of each semester, sometimes at mid-semester (to ask whether anything needs adjusting during the course). Surveys will often be quick to fill in (sometimes very quick), apart from open-ended questions asking for not just a click but for a typed reply. Typically only a minority of students type in an open-ended response and yet these are often the most influential, and we particularly welcome such contributions. Survey responses are always anonymous: teaching staff cannot link a response to the student who gave it.

The result of each survey and the School response will be published on Moodle and on the Student Voice web page.

13.8. HEALTH & SAFETY POLICY

The University has a policy regarding the health and safety of staff and students. This covers all activities undertaken as part of the teaching process, from the condition of the steps in the Lecture theatre to the handling of hazardous substances and the implementation of possibly hazardous procedures. All students have the right to seek assurances on the safety of any activities in which they may be asked to participate.

Psychology does not require dissection of animals nor does it require animal experimentation as part of its undergraduate degree. Moreover, there are no invasive procedures used on human subjects. All apparatus used in experiments has been safety checked and approved. It is unlikely therefore that a student will encounter any problems.

Nevertheless, any student who believes there is a health or safety threat should raise the issue with the course organiser and have the matter entered in the safety log book.

13.9. USE OF COURSE MATERIALS AND PERSONAL RECORDING OF LECTURES, SEMINARS AND TUTORIALS

In using course materials and Lecture recordings/media, students are agreeing to the following terms and conditions of use:
1. Course materials available on Moodle including Lecture slides; Lecture recordings; information to support the Lecture course; project materials; and data files; should only be accessed and downloaded by those students enrolled on the course.

2. Use of such materials should be in relation to the course and used solely by psychology students for the purposes of supporting their learning.

3. Copyright of content used in Lectures is protected.

4. Any use of course materials (including Lecture recordings) other than for a student's personal use in relation to their studies or any unauthorised distribution of course materials (e.g. on forums, social media or the internet) will be considered a serious breach of the Code of Student Conduct and will be subject to disciplinary action.

5. The use of recording devices, such as voice or visual recording, is permitted in this course only to:

6. students who have been deemed so eligible by the University's Disability Service; and

7. students given permission in advance by the staff member conducting the teaching session

8. These recordings are subject to the conditions laid out in the relevant document on Moodle. No recordings are allowed until you have read the terms and conditions in this document.

The Lecture recording policy can be found here: [http://www.gla.ac.uk/media/media_359179_en.pdf](http://www.gla.ac.uk/media/media_359179_en.pdf).

14. PROGRESSION FROM PSYCHOLOGY 1

The progression information below may change, especially for progression into later years. Any changes will be updated on MyCampus. More detailed course information is available from course handbooks which can be found on the School of Psychology's website, [https://www.gla.ac.uk/schools/psychology/teaching/currentstudentscourseinformation/](https://www.gla.ac.uk/schools/psychology/teaching/currentstudentscourseinformation/)

14.1. PSYCHOLOGY 2A AND PSYCHOLOGY 2B (2ND YEAR)

For guaranteed entry to Psychology 2A a student will have passed Psychology 1A/1B at an average of grade B3 or better. Any remaining places will be allocated via a waiting list. Class sizes in Level 2 are limited to 300 students. Students who aim to progress to Honours Level will be given priority with remaining places offered to students wishing to extend their knowledge of Psychological research.

14.2. DEFERMENT OF ENTRY TO PSYCHOLOGY 2A/2B

Students who are unable to take up a place they have been offered in Psychology 2A/2B but who wish to defer taking up the place for 12 months can only do so after discussion with the Course Organiser and with written permission. Permission for deferment must be sought and agreed by the beginning of the academic term in which the place would have normally been taken up. If permission is not sought, the School cannot guarantee to make the place available in subsequent years.

14.3. PROGRESSION TO LEVEL 3

Entry into Psychology Level 3 is guaranteed to Level 2 applicants who satisfy both of the following two conditions:

1. you must have gained at your first attempt a Level 2 Pass at Grade B2. (Averaged over modules 2A and 2B).
2. you must have fulfilled the regulations for progression to Honours.

Students who do not satisfy each of these two conditions will not normally be allowed into Level 3 honours Psychology.

The overall grade at Level 2 is made up as follows:

- Laboratory Portfolios in Psychology 2A/2B contribute 50%
- Degree examinations in Psychology 2A/2B contributes 50%

14.4. PSYCHOLOGY LEVEL 4
In-depth “options” are offered in final honours, with single-honours students currently selecting 9 from a range of 21.

14.5. **TIER 4 PROGRESSION**

As a Tier 4 sponsor the University of Glasgow are unable to continue visa sponsorship for a student who has been withdrawn from their studies by the University, or is undertaking an academic appeal against the withdrawal, as they will not be studying full-time and as such no longer fulfil the requirements of the immigration rules as a student. If you are a Tier 4 student and are unclear of any of the regulations on progression, please check here: [http://www.gla.ac.uk/services/registry/tier4](http://www.gla.ac.uk/services/registry/tier4).

15. **BRITISH PSYCHOLOGICAL SOCIETY**

15.1. **GRADUATE BASIS FOR CHARTERSHIP**

In order to eventually work as a Chartered Psychologist in the UK, the British Psychological Society requires students to complete a degree course which gives them Graduate Basis for Chartership with the society. Both psychology single and joint honours courses at the University of Glasgow confer this. The minimum pass Level for GBC eligibility is a Lower Second Honours degree.

Where a joint honours student performs at least at a Lower Second Level in Psychology but is brought down to a Third by their other honours subject, they may be considered as eligible for GBC.

The Practical component at honours (we call this the Maxi Project) must be passed for GBC. Further information may be obtained by referring to the BPS website: [www.bps.org.uk](http://www.bps.org.uk).

15.2. **UNDERGRADUATE MEMBERSHIP OF THE BPS**

The British Psychological Society accepts undergraduate members at low cost. There are many advantages to membership, including a monthly journal, appointments memoranda and access to low-cost major journals in key areas of psychology.

16. **LIBRARY RESOURCES FOR PSYCHOLOGY STUDENTS AT GLASGOW UNIVERSITY**

The main University Library is the twelve-storey building located at the top of Hillhead Street next to the School of Psychology. Your Campus Card is also your Library card and you need it to get into the building. It is open from 7:15 am to 2 am, seven days a week for 361 days of the year.

Information for new students can be found by navigating the library’s website: [https://www.gla.ac.uk/myglasgow/library/help/](https://www.gla.ac.uk/myglasgow/library/help/)

Guided Tours are available; check the Library’s Social Media ([www.Social_Media.com/uofglibrary](http://www.Social_Media.com/uofglibrary)) or webpage ([www.gla.ac.uk/services/library](http://www.gla.ac.uk/services/library)) for times.

Study spaces are zoned red, amber and green to indicate silent, quiet and group study areas. Different areas may have individual study carrels, group study rooms and social seating areas. To book a group study room speak to the staff at the Welcome Desk on Level 2.

The Library has two collections with multiple copies of Psychology recommended texts.

- High Demand Collection (housed on Level 3) is a self-issue and self-return area with books available for 4hr or 24hr loan
The One Week Psychology collection is on Level 8, books from here must be taken to Level two if you want to borrow them.

The Quicksearch system (available from the home page) helps you to find books by author, title and/or keywords; this also searches a collection of over 800,000 electronic books. You can recall books that are out on loan and are encouraged to do so as this alerts the Library to the fact that more copies are needed. Psychology related books can be in other sections like physiology so make use of Quicksearch to find books on your topic. If you experience problems finding information that you need for your course please contact Roma Thompson, the College Librarian.

58,000 electronic journals are also available via the Library system. You can sometimes find journal articles via Google but it's better to learn to look for the title of the journal and access them via the Library system if you want the full text quickly and free of charge. Various databases such as Web of Science and PsychInfo are available to help you discover relevant journal articles on your topic. All the databases, eBooks and most eJournals can be used off-campus by using your GUID to log into them. These resources are very useful in carrying out the Critical Reviews that form part of the continuous assessment.

The University Library has over 800 networked PCs that are available throughout the building along with Wi-Fi, scan, print, copy, power and charge facilities. Help with connection to Wi-Fi on your laptop, tablet or smartphone is available from the IT support staff.

Throughout the academic year Roma, working with academic staff, provides support via e-mail, face-to-face appointments and through providing help online. The Psychology Subject page, containing the link to the online course, can be found on the Library website at: https://www.gla.ac.uk/myglasgow/library/help/subjects/psychology/.

We have reciprocal arrangements for you that allow you to use the library resources of Strathclyde and Glasgow Caledonian Universities as well as others based around the UK. To see a full list of these go to www.sconul.ac.uk/sconul-access and select the options that apply to you, for example, full-time undergraduate at the University of Glasgow.

Students experiencing any problems in using the Library or finding material can contact Roma. She has an office on Level 8 of the Library and can be contacted by e-mail on roma.thompson@glasgow.ac.uk or by telephone on extension 6711.

17. STUDENT REPRESENTATIVE COUNCIL (SRC)

17.1. HOW THE SRC CAN HELP YOU

Student Representatives:
During the early weeks of each course, you will select student representatives who receive training from the SRC and represent your views on Staff-Student Liaison Committees. The role of these students is very important and it is imperative that you let them know when things are going well and not so well with your course so that they can keep the School informed on everything from teaching to facilities, to ensure that there is continuous improvement.

Advice Centre:
The SRC employs professional advisers to help you through any problems you might be having. These can range from welfare issues such as money and accommodation to representation in academic appeals and disciplinary matters. This is a free service, no appointment is necessary and their doors are open from Monday – Friday 11:30 am – 4 pm. You can also contact this service via advice@src.gla.ac.uk.

Vice-President (Education):
The VP Education oversees the whole student representative system, including providing the training. (S)He also represents the views of all students to the University on a variety of committees. If you have a matter relating to your education, which you feel requires attention, do not hesitate to get in touch via vp-education@src.gla.ac.uk or by
dropping in to the SRC offices in the McIntyre Building on University Avenue. This and all other information about the SRC is available from www.glasgowstudent.net.

18. LOCATION OF SCHOOL OF PSYCHOLOGY AND LABS

The School of Psychology is situated at 62 Hillhead Street which is past the Library (D11 on the campus map here: www.gla.ac.uk/media/media_335384_en.pdf). The Boyd Orr Building sits on the corner of Byres Road and University Avenue and can be found at B7 on the campus map.
19. LEVEL 1A/1B PSYCHOLOGY WORK RECORD (2018-19)
